UNITED STATES PATENT OFFICE

EDWIN NORTON, OF CHICAGO, ILLINOIS.

DESIGN FOR CANS.

Specification forming part of Design No. **9,767**, dated February 27, 1877; application filed February 12, 1877.
[Term of Patent 7 years.]

To all whom it may concern:

Be it known that I, EDWIN NORTON, of Chicago, in the county of Cook and State of Illinois, have invented a certain new and useful Design for Cans; and I do hereby declare that the following is a full, clear, and exact description thereof, which will enable others skilled in the art to which it appertains to make and use the same, reference being had to the accompanying drawings and to the letters of reference marked thereon, which form a part of this specification.

The nature of my design is fully illustrated in the accompanying drawing; and it consists in a triangular or three-sided can or package with rounded corners, as will be hereinafter more fully set forth.

In the accompanying drawing, A represents a can or package made of sheet metal or other

suitable material, and provided with a cover, B. The can or package is made in triangular form and the corners are rounding, as shown, and the cover is made of corresponding form.

Having thus fully described my invention, what I claim as new, and desire to secure by Letters Patent, is—

The design for a can or package, being of angular form with rounding corners, and corresponding form of cover, all as shown and described.

In testimony that I claim the foregoing as my own I affix my signature in presence of two witnesses.

EDWIN NORTON.
