UNITED STATES PATENT OFFICE.

OLIVER B. KEELEY, OF SPRING CITY, ASSIGNOR TO HIMSELF AND
ENOS S. SHANTZ, OF PHILADELPHIA, PENNSYLVANIA.

DESIGN FOR COOKING-STOVES.

Specification forming part of Design No. 9,890, dated April 3, 1877; application filed March 7, 1877.
[Term of Patent 7 years.]

To all whom it may concern:

Be it known that I, OLIVER B. KEELEY, of Spring City, Chester county, Pennsylvania, have invented a new and original Design for a Cooking-Stove, of which the following is a specification:

My design for a cooking-stove is fully shown in the accompanying drawing.

The side of the stove has one large and two small doors, the ornamentation of all three doors being alike in general characteristics, and comprising an outer molding, *a*, a curved rib, *b*, an inner molding, *d*, and a panel, *e*, the latter having a central ornament, *f*. In the two small doors this central ornament consists of a simple rosette; but in the large door the ornament consists of the letters O and P, arranged in the form of a monogram.

Beneath the doors is a panel, *g*, containing descriptive matter.

The stove is supported upon feet *i*, the prominent ornament of each of which is a monogram similar to that on the large door of the oven.

The fire-doors *j*; in front of the fire-place, have mica-covered openings *m*, and moldings

on three edges; but the front edges of the two doors, which abut against each other when the doors are closed, are without any molding, so that when the doors are closed the appearance is that of a single door. (See Fig. 2.)

I claim—

1. The design for the stove-door, comprising the outer molding *a*, curved rib *b*, inner molding *d*, and panel *e*, with central ornament *f*, as shown and described.
2. The design for the central ornament for the stove-door, consisting of the monogram, as shown and described.
3. The design for the feet *i*, with the monogram ornament, as shown and described.
4. The design for the complete stove, substantially as described, and as shown in the drawing.

In testimony whereof I have signed my name to this specification in the presence of two subscribing witnesses.

OLIVER B. KEELEY.
