UNITED STATES PATENT OFFICE.

ALBERT H. CARON, OF RAUENTHAL, PRUSSIA.

DESIGN FOR BUTTONS.

Specification forming part of Design No. **10,259**, dated September 25, 1877; application filed July 31, 1877.
[Term of Patent 14 years.]

To all whom it may concern:

Be it known that I, ALBERT H. CARON, of Rauenthal, Prussia, have invented a new and original Design for a Button, of which the following is a specification:

The button is circular in form, with a central cavity, having a flat bottom, *t*, and an inclined face, *a*, extending upward to an annular face, *b*, which merges into a downwardly-rounded edge, *e*. In the flat face *t* are four holes *s*, arranged at equal distances apart, and the annular face *b* is ornamented by embossing, as shown.

I claim—

The design for a button having a central cavity, with a flat perforated bottom, *t*, and inclined side *a*, surrounded by a flat annular face, *b*, embossed, as shown, and merging into a downwardly-rounded edge, *e*, as set forth.

ALBT. H. CARON.
