# UNITED STATES PATENT OFFICE.

REISSUED

LOUIS HECKMANN, OF PLAINVILLE, MASS., ASSIGNOR OF TWO-THIRDS HIS RIGHT TO WM. H. WADE AND EDWD. P. DAVIS, OF SAME PLACE.

## DESIGN FOR ORNAMENTAL SCROLL-WORK FOR JEWELRY.

Specification forming part of Design No. **10,288**, dated October 30, 1877; application filed August 25, 1877.  
[Term of Patent 7 years.]

*To all whom it may concern:*

Be it known that I, LOUIS HECKMANN, of Plainville, in the county of Norfolk and State of Massachusetts, have originated and designed a Scroll-Work for Articles of Jewelry, of which the following is a full, clear, and exact description, reference being had to the accompanying drawings, making part of this specification.

This scroll-work is intended as a trimming for shawl-pins, ear-rings, locket, &c., for the purpose of rendering the same more ornamental.

In the drawings, Figure 1 is a side elevation of a piece of scroll-work executed according to my design. Fig. 2 is a plan of the same, and Fig. 3 a cross-section of the fluted band.

Similar letters of reference indicate corresponding parts.

*a* represents a draft-rod, upon which runs the fluted band *b*, touching the said rod *a* upon

its under side at each coil. *c c* represent flat, round surfaces or crests upon the upper side of each coil of the fluted band *b*. The entire band *b* is fluted or corrugated, as seen in Fig. 3. *d d* are merely pegs, for the purpose of attaching the trimming to the article of jewelry for which it is intended.

The rod *a* may be omitted, as it forms no portion of the design of the scroll.

What I claim, and desire to secure by Letters Patent, is—

The design for ornamental scroll-work for articles of jewelry, composed essentially of the fluted band *b*, provided with the crests *c c*, as shown, said band being coiled in the shape of a scroll, substantially as described, and illustrated in the accompanying drawings.

LOUIS HECKMANN.
