

DESIGN FOR COOKING-STOVES.

Design No. **10,335**, dated November 27, 1877

N. S. VEDDER.
TROY, N. Y.

Cut 168.

UNITED STATES PATENT OFFICE.

NICHOLAS S. VEDDER, OF TROY, AND TOBIAS S. HEISTER, OF LANSINGBURG, NEW YORK, ASSIGNORS TO SAID VEDDER.

DESIGN FOR COOKING-STOVES.

Specification forming part of Design No. **10,335**, dated November 27, 1877; application filed November 16, 1877.
[Term of Patent 3½ years.]

To all whom it may concern:

Be it known that we, NICHOLAS S. VEDDER, of the city of Troy, in the county of Rensselaer and State of New York, and TOBIAS S. HEISTER, of the village of Lansingburg, in said county and State, have jointly invented and produced a new and original Design for Cooking-Stoves, of which the following is a specification, reference being had to the accompanying cut, print, or engraving of a cooking-stove having our said new design.

One part of this invention is the design for the border portion of the side doors, the same consisting of the inner compound border-molding *b* and the compound rear corner ornaments *c*, *d*, and *e*, all shaped and arranged together substantially as shown in the aforesaid engraving, with or without the front side ornament *f* or the front corner ornaments *g*.

Another part is the design for the door-panels, consisting of the compound border-molding *b* and the central medallion *h*, all shaped, ornamented, and disposed substantially as represented in the aforesaid cut.

Another part is the design for the panel I, consisting of the central quadrilateral tablet *j*, surrounded by the molding *b'* and the corner ornaments *k* and outer molding *l*, all shaped and arranged substantially as shown in the accompanying print.

Another part is the design for the front door M, consisting essentially of the outer corner ornaments *k'*, the molding *n*, and the ornaments *o*, all shaped and arranged as represented in the aforesaid cut.

Another part is the design for the legs, consisting of the three faces *p*, meeting at obtuse angles with centrally-truncated corners *q*, the concave upper molding *r*, with side scrolls *s* and bottom fillet *t*, and the lower concave sides *u*, united by truncated corners *v* at the lower parts, all shaped and arranged so as to appear substantially as represented in the accompanying engraving.

What we claim as our invention is—

1. The design for the border portion of the side doors, consisting of the parts *b*, *c*, *d*, and *e*, all shaped and arranged as set forth.
2. The design for the door-panels, consisting of the compound molding *b* and medallion *h*, all shaped and arranged as set forth.
3. The design for the panel I, consisting of the parts *j*, *b'*, *k*, and *l*, shaped and arranged together as set forth.
4. The design for the front door M, consisting of the parts *k'*, *n*, and *o*, all shaped and arranged as shown and described.
5. The design for the legs, composed of the parts *p*, *q*, *r*, *s*, *t*, *u*, and *v*, shaped and arranged together as set forth.

In testimony whereof we hereunto set our hands, in the presence of two subscribing witnesses, this 14th day of November, 1877.

NICHOLAS S. VEDDER.
TOBIAS S. HEISTER.
