EXAMINED

No. 10,406

January 15, 1878

UNITED STATES PATENT OFFICE.

SIMON WIENER, OF NEWARK, NEW JERSEY, ASSIGNOR TO WIENER & CO.,
OF SAME PLACE.

DESIGN FOR HARNESS-TRIMMINGS.

Specification forming part of Design No. **10,406**, dated January 15, 1878; application filed December 15, 1877.
[Term of Patent 7 years.]

To all whom it may concern:

Be it known that I, SIMON WIENER, of the city of Newark, in the county of Essex and State of New Jersey, have originated and designed a novel Design for Harness-Trimnings, of which the following is a specification, reference being had to the accompanying photographic illustration.

The characteristics of the design are exhibited in the accompanying photographic illustration of a terret-ring, which is a representative harness-trimming, and intended to afford an instance of the invention, which consists in the ornamentation of the edges or ridges, or both, of harness-trimmings with a band of contrasting appearance, regardless of the peculiar article to which the ornamentation may be affixed, so that the contrasting band be placed upon the edge thereof, or upon a ridge or ridges on the article.

The essential distinction of the design consists in a contrasting band placed upon the crest of a ridge or the extreme portions of an edge, or on both, when possible, in the same article.

Preferably the harness-trimming should be

of a dark hue, the ornamenting band or bands of a bright metallic appearance, as thus a vivid and clear effect is produced.

The bands may be of the same or different colors, as desired.

What I claim as my invention, and desire to secure by Letters Patent, is—

1. A harness-trimming having a ridge, upon the extreme crest of which is placed a band of contrasting appearance, substantially as shown and described.

2. A harness-trimming having a ridge, upon the extreme crest of which is placed a band of contrasting appearance, and having, also, a base, the edge of which is ornamented by a band of contrasting metal, substantially as shown and set forth.

In testimony that I claim the foregoing design for harness-trimmings, as above described, I have hereunto set my hand this 8th day of December, 1877.

SIMON WIENER.
