LIBRARY LAMP.

# UNITED STATES PATENT OFFICE.

ARTHUR H. BENTON, OF MINNEAPOLIS, MINNESOTA.

## DESIGN FOR LAMPS.

Specification forming part of Design No. **10,434**, dated February 5, 1878; application filed January 22, 1878.  
[Term of patent  $3\frac{1}{2}$  years.]

*To all whom it may concern:*

Be it known that I, ARTHUR H. BENTON, of the city of Minneapolis, in the county of Hennepin and State of Minnesota, have originated and designed a Library-Lamp; and I do hereby declare that the following is a full, clear, and exact description thereof, reference being had to the accompanying drawings, and to the letters of reference marked thereon, which form a part of this specification.

A represents a piece from which is suspended by means of two parallel rods, B B, of iron or other suitable material, the crown-piece C. This crown-piece C also supports or suspends the curved support D, on which the lamp E rests.

I am aware that neither of the above parts taken by themselves is new; but

What I claim as my invention is—

A design for a library-lamp in which is the combination of the piece A, the two parallel rods B B, the crown-piece C, and the curved support D, on which rests the lamp E, substantially in the manner above described.

In testimony that I claim the foregoing as my own I affix my signature in presence of two witnesses.

ARTHUR H. BENTON.

Witnesses:

WM. HEGGUM,  
GEO. McCLELLAND.
