OF D 10,679

DESIGN FOR SUMMER-PIECE OR REGISTER-FRONT.

Design No. **10,679**, dated May 14, 1878

UNITED STATES PATENT OFFICE.

JOSEPH A. READ, OF PHILADELPHIA, PENNSYLVANIA, ASSIGNOR TO GILBERT COMBS AND JOHN BAWDEN, OF FREEHOLD, NEW JERSEY.

DESIGN FOR SUMMER-PIECE OR REGISTER-FRONT.

Specification forming part of Design No. **10,679**, dated May 14, 1878; application filed May 6, 1878.
[Term of patent 7 years.]

To all whom it may concern:

Be it known that I, JOSEPH A. READ, of Philadelphia, Pennsylvania, have invented a new and useful Design for Summer-Piece or Register-Front, of which the following is a specification:

My design is fully illustrated in the accompanying drawing, Figure 1 of which shows a register-front with round top, and Fig. 2 the same with flat top.

The design comprises an open-work border, *a*, frames *b* and *d*, which follow the contour of the border, a central ornament, *e*, in the shape of a vase, and intervening ornamentation, of a character too fully shown to need minute description.

I claim—

The design for a register-front or summer-piece for fire-places, said design comprising the border *a*, frames *b* *d*, central ornament *e*, and intervening ornamentation, all substantially as described, and as shown in and by the accompanying drawing.

In testimony whereof I have signed my name to this specification in the presence of two subscribing witnesses.

JOSEPH A. READ.
