

DESIGN FOR PARLOR-STOVES.

Design No. **10,684**, dated May 21, 1878

UNITED STATES PATENT OFFICE.

FRANK S. BISSELL, OF PITTSBURG, PENNSYLVANIA.

DESIGN FOR PARLOR-STOVES.

Specification forming part of Design No. **10,684**, dated May 21, 1878; application filed April 29, 1878.
[Term of patent 7 years.]

To all whom it may concern:

Be it known that I, FRANK S. BISSELL, of the city of Pittsburg, in the county of Allegheny and State of Pennsylvania, have originated and designed a new and useful Pattern, Shape, or Configuration for Stoves, of which the following is a full, clear, and exact description, reference being had to the accompanying drawing, making a part of this specification.

My design relates to that style or class of stoves known as "Open," "Parlor," or "Franklin" stoves.

A is the body of the stove; B, the base; C, the top, the cornice of which projects. D D are two columns. E is the grate. F is an ornamental open-work screen or shutter conceal-

ing the ash-pan. G is one of the brackets which supports the cornice of the top. H is an ornamental urn, which is mounted on the top. I is a low-down fender. J is a series of ornamental work on the ends. K is the tile.

Having thus described my design or configuration, what I claim, and desire Letters Patent for, is—

The design consisting of the configuration for a stove, as hereinbefore described, and shown in the accompanying illustration.

FRANK S. BISSELL.
