UNITED STATES PATENT OFFICE.

HERMAN IHLENBURG, OF PHILADELPHIA, PENNSYLVANIA, ASSIGNOR TO
MACKELLAR, SMITHS & JORDAN, OF SAME PLACE.

DESIGN FOR A FONT OF PRINTING-TYPES.

Specification forming part of Design No. **10,712**, dated June 4, 1878; application filed May 27, 1878.
[Term of patent 14 years.]

To all whom it may concern:

Be it known that I, HERMAN IHLENBURG, of the city and county of Philadelphia, Pennsylvania, (assignor to MACKELLAR, SMITHS & JORDAN,) have invented and produced a new and original Design for a Font of Printing-Types, of which the following is a specification:

The nature of my design is clearly shown in the accompanying impressions, to which reference is made, and consists of a letter shaded by a lighter line and the tendril-like ornaments, as shown.

In the letters C, D, G, J, and U the rounding portion of the letter is made fuller below than above. In the letters C and G the terminations of the letter upon the right hand are provided with the inclined side, as shown.

In the lower-case the fullness of the lower portion of the letter is shown in the c, e, and u. The f has upon the right the pendent line terminating in a dot, and the upper portion, upon the right of the v and w, extends above the left-hand portion, and presents the appearance of a dot flattened out, which also characterizes both the upper portion, of the x.

Having now set forth my invention, what I claim as new is—

The design for a font of printing-types, as shown and described.

HERMAN IHLENBURG.

In presence of—

C. F. HUCH,
HERMAN METIUS.
