# UNITED STATES PATENT OFFICE.

MATHEW STOCKHAUSEN AND WALTER BECKLIND, OF NEW YORK, N. Y.

## DESIGN FOR CIGAR-BOX.

Specification forming part of Design No. **10,730**, dated June 18, 1878; application filed May 20, 1878.  
[Term of patent 7 years.]

*To all whom it may concern:*

Be it known that we, MATHEW STOCKHAUSEN and WALTER BECKLIND, of the city of New York, county of New York, and State of New York, have invented a new and original Design for a Cigar-Box, of which the following is a specification:

Figure 1 is a horizontal section on the line *c c*, Fig. 2. Fig. 2 is a side elevation of our newly-designed cigar-box; and Fig. 3 is a vertical central section on the line *k k*, Fig. 1.

Similar letters of reference indicate corresponding parts in all the figures.

This invention relates to a new design for a cigar-box; and consists in the new configuration hereinafter described.

In the drawing, the letter *A* represents our newly-designed cigar-box. The same is, at its outer side, provided with upright cigar-shaped moldings *a a*, placed close together, except at

two places where the series of these moldings is separated by two flat uprights, *b b*, also shown in Fig. 1.

The cigar-shaped moldings *a a* in each series are placed with their pointed ends upward, and form scallops between them, as shown.

*d* are ornamented tips applied to the upper ends of the moldings *a*; and *e* is a cover for closing the box *A*. *f* is a horizontal band placed around the box *A* at about the center thereof.

I claim—

The design for a cigar-box, substantially as shown.

M. STOCKHAUSEN.  
WALTER BECKLIND.
