No. 10,833

September 17, 1878

UNITED STATES PATENT OFFICE.

JAMES W. MILLER, OF NEWARK, AND ISAAC M. MILLER, OF ORANGE, N. J.

DESIGN FOR BUTTONS, &c.

Specification forming part of Design No. **10,833**, dated September 17, 1878; application filed June 15, 1878.
[Term of patent 14 years.]

To all whom it may concern:

Be it known that we, JAMES W. MILLER, of Newark, Essex county, and ISAAC M. MILLER, of Orange, Essex county, State of New Jersey, have invented a new and useful Design for Buttons, Studs, Locketts, Medallions, Pins, Ear-Rings, and Bracelets, of which the following is a full, clear, and exact description, reference being had to the accompanying photographic illustrations, making part of this specification.

A represents the face of a button. B represents a bird with a party-drooping tail, facing to the left, and in the act of flying from the branch of a bush or tree. C represents a nest and eggs in the fork of two branches, which are spread to the right, and in front of and over the bird, to a point in juxtaposition

to the tail. *c c c c* represent a portion of the branches of the bush or tree. *d d d d* represent a portion of the fruit and leaves on the branches, the whole bounded by a circle, around which is scroll-work inclosed in a square-corded or beaded border.

We claim—

The design for sleeve-buttons and other jewelry, composed of the bird B, nest and eggs C, branches *c c c c*, and fruit and leaves *d d d d* within a circle and surrounded by a suitable border, substantially as described and shown.

JAMES W. MILLER.
ISAAC M. MILLER.
