

UNITED STATES PATENT OFFICE.

STEPHEN C. HOWARD, OF NEW YORK, N. Y.

DESIGN FOR BROOCH.

Specification forming part of Design No. **10,958**, dated December 10, 1878; application filed November 7, 1878. [Term of patent 3½ years.]

To all whom it may concern:

Be it known that I, STEPHEN C. HOWARD, of the city, county, and State of New York, have invented and produced a new and original Design for Brooches; and I do hereby declare that the following is a full, clear, and exact description of the same, reference being had to the accompanying photographic illustration, forming part of this specification.

The general form of the design is that of a

The general form of the design is that of a stem, leaves, and catkin of the plant *Typha*, commonly known as "cat's-tail," having placed in front of it a bivalve-shell containing a pearl.

a is the stem, b b are the leaves, and c is the catkin, of the cat's tail plant. e is the shell, having its inner side turned to view, and d is the pearl contained in the shell.

What I claim as my invention is— The design for a brooch, consisting of the stem, leaves, and eatkin of the *Typha*, a b b c, shell e, and pearl d, all arranged substantially as herein described and shown.

STEPHEN C. HOWARD.

Witnesses:

T. J. KEANE, FRED. HAYNES.
