[Term of patent 3½ years.]

Be it known that I, CORNELIUS JACKSON, of Philadelphia, Pennsylvania, have produced or invented a new and original Design for a Knitted Fabric, of which the following is a specification:

My design for a knitted fabric is fully shown in the accompanying photographic illustration.

The groundwork of the design is composed of loosely-knitted loops of light thread, with which are interlocked loops of heavier thread, the latter being compacted at the points shown, so as to form prominent spots *a*.
