MEMORANDUM FOR: Gen. Maxwell B. Taylor,  
Chairman, Special Group

FROM: Richard H. Davis, Chairman  
Special Working Group

SUBJECT: Fourth Berlin Progress Report - October 12 -  
December 11, 1961

1. Detailed Plans for Use of CIA Contingency Assets.

The Special Working Group of the Interdepartmental Coordinating Committee on Berlin has considered the first draft of a clandestine operations plan. This paper is intended to assist CIA in its detailed planning for use of the covert assets created or in the process of formation as a result of earlier decisions by the Special Working Group taken pursuant to the "Covert Actions Annex of the Berlin Contingency Plan" approved by the Special Group at its meeting on August 17, 1961. The draft paper is based on US and quadripartite contingency planning, which is not yet fully agreed and which still has some gaps. The scope of the draft paper is necessarily limited by the incompleteness of the underlying contingency plans. The draft was prepared in order to relate the covert assets available and in process of formation to the agreed plans for dealing with the expected contingency situations. CIA has sent the draft to their field stations for comments, and it will be revised when those comments and the comments of interested agencies are received.

2. Attack on Soviet Espionage.

With the surfacing in Germany of Eugen Stashinsky and of Quenter Manual shortly thereafter on November 24, 1961, we initiated the program to publicize Soviet espionage and subversive activities in the West and particularly those launched or directed from East Germany. The objectives of the program are to counter-balance Soviet charges against West Berlin and to initiate a campaign against the Soviet espionage and subversion activities against the West.

The program is off to a good start. In several countries considerable interest has been aroused and more material is being made available.

2. Attack on Soviet Espionage

With the surfacing in Germany of Bogdan Stanchinski and of Guenter Haumann shortly thereafter on November 24, 1961, we initiated the program to publicize Soviet espionage and subversive activities in the West and particularly those launched or directed from East Germany. The objectives of the program are to counter-balance Soviet charges against West Berlin and to initiate a campaign against the Soviet espionage and subversion activities against the West.
