Dear Jaco:

I have heard you are celebrating your 25 years at CWI. I would like to send you my congratulations for your long activity in the field of semantics. Since the time you came in Pisa, more than twenty years ago, for a Conference organized by Alfonso Caracciolo di Forino, your work has been of extraordinary importance for all of us. I am sure you will continue to have a central role in making and organizing research in our field.

Best wishes!

Yours Sincerely
