## Abstract

The Office of Operations Coordination and Planning (OPS), National Operations Center (NOC), will launch and lead the Publicly Available Social Media Monitoring and Situational Awareness (Initiative) to assist the Department of Homeland Security (DHS) and its components involved in fulfilling OPS statutory responsibility (Section 515 of the Homeland Security Act (6 U.S.C. § 321d(b)(1)) to provide situational awareness and establish a common operating picture for the federal government, and for those state, local, and tribal governments, as appropriate. The NOC and participating components<sup>1</sup> may also share this de-identified information with international partners and the private sector where necessary and appropriate for coordination. While this Initiative is not designed to actively collect Personally Identifiable Information (PII), OPS is conducting this Privacy Impact Assessment (PIA) because the Initiative could potentially involve PII or other information received in an identifiable form. In the event PII comes into the Department's possession under this Initiative, the NOC will redact all PII prior to further dissemination of any collected information. In the event of an *in extremis* situation involving potential life and death, OPS will share certain PII with the responding authority in order for them to take the necessary actions to save a life, such as name and location of a person calling for help buried under rubble, or hiding in a hotel room when the hotel is under attack by terrorists.

Reference is made to previous social media event monitoring initiative PIAs conducted by OPS to provide situational awareness and establish a common operating picture for the entire federal government, and for state, local, and tribal governments as appropriate, and to ensure that critical disaster-related information reaches government decision makers consistent with Section 515 of the Homeland Security Act (6 U.S.C. § 321d(b)(1)). Those OPS PIAs include: 1) Haiti Social Media Disaster Monitoring Initiative (January 21, 2010); 2) 2010 Winter Olympics Social Media Event Monitoring Initiative (February 10, 2010); and 3) April 2010 BP Oil Spill Response Social Media Event Monitoring Initiative (April 29, 2010). For more information on these OPS PIAs, visit [www.dhs.gov/privacy](http://www.dhs.gov/privacy). Going forward, individual PIAs on social media monitoring will not be issued, instead, they will be covered by this overarching PIA.

This PIA will be reviewed every six months to ensure compliance. This will be done in conjunction with a Privacy Office-led Privacy Compliance Review of the Initiative and of OPS social media monitoring Internet-based platforms and information technology infrastructure.

## Overview

Federal law requires the NOC to provide situational awareness and establish a common operating picture for the entire federal government, and for state, local, and tribal governments as appropriate, and to ensure that critical disaster-related information reaches government decision makers. See Section 515 of the Homeland Security Act (6 U.S.C. § 321d(b)(1)). The law defines the term "situational awareness" as "information gathered from a variety of sources that, when communicated to emergency managers and decision makers, can form the basis for incident management decision-making." OPS is launching and leading this Initiative to fulfill its legal mandate to provide situational awareness and establish a common operating picture. In doing so, OPS is working with select components within the Department to achieve

---

<sup>1</sup> OPS is working with select components within the Department to provide situational awareness and establish a common operating picture for the federal government, and for state, local, and tribal governments as appropriate, and to ensure that critical disaster-related information reaches government decision makers consistent with Section 515 of the Homeland Security Act (6 U.S.C. § 321d(b)(1)).

this statutory mandate.

The NOC will use Internet-based platforms that provide a variety of ways to follow activity related to monitoring publicly available online forums, blogs, public websites, and message boards. Through the use of publicly available search engines and content aggregators<sup>2</sup> the NOC will monitor activities on the social media sites listed in Appendix A for information that the NOC can use to provide situational awareness and establish a common operating picture. Appendix A is a current list of sites that the NOC will use as a starting point under this Initiative. Initial sites listed may link to other sites not listed. The NOC may also monitor those sites if they are within the scope of this Initiative. The NOC will gather, store, analyze, and disseminate relevant and appropriate de-identified information to federal, state, local, and foreign governments, and private sector partners authorized to receive situational awareness and a common operating picture. Under this initiative, OPS will not: 1) actively seek personally identifiable information (PII); 2) post any information; 3) actively seek to connect with other internal/external personal users; 4) accept other internal/external personal users' invitations to connect; or 5) interact on social media sites. However, OPS is permitted to establish user names and passwords to form profiles and follow relevant government, media, and subject matter experts on social media sites listed in Appendix A in order to use search tools under established criteria and search terms such as those listed in Appendix B for monitoring that supports providing situational awareness and establishing a common operating picture.

The NOC will identify and monitor only information needed to provide situational awareness and establish a common operating picture. The NOC will use this information to fulfill the statutory mandate set forth above to include the sharing of information with foreign governments and the private sector as otherwise authorized by law.

The Department may use social media for other purposes including interacting with the public, disseminating information to the public, as well as law enforcement, intelligence, and other operations covered by applicable authorities and PIAs. For more information on these social media PIAs, visit [www.dhs.gov/privacy](http://www.dhs.gov/privacy).

## Section 1.0 Characterization of the Information

The following questions are intended to define the scope of the information requested and/or collected as well as reasons for its collection as part of the program, system, rule, or technology being developed.

### 1.1 What information is collected, used, disseminated, or maintained in the system?

Third-party service providers offer an array of applications that provide social media services along with publicly-available online forums, blogs, public websites, and message boards. See Appendix A for a current list of the types of sites that may be viewed for information. See Appendix B for current search terms used under this Initiative. The NOC will review information posted by individual account users on third-party social media websites of activities and events necessary to provide situational awareness and establish a common operating picture. The NOC will access these web-based platforms to identify content posted by public users for the purpose of providing situational awareness and establishing a common

---

<sup>2</sup> Content aggregators generally provide a consolidated view of web content in a single browser display or desktop application.

operating picture. The NOC will assess information identified to assist decision-makers.

The NOC shall not actively collect data on the individuals posting information to third-party service providers, about individual users, or PII. Should PII come into the NOC's possession, the NOC shall redact it prior to further dissemination of any collected information. In the event of an *in extremis* situation involving potential life and death, DHS will share certain PII with the responding authority in order for them to take the necessary actions to save a life, such as name and location of a person calling for help buried under rubble, or hiding in a hotel room when the hotel is under attack by terrorists.

### **1.2 What are the sources of the information in the system?**

Members of the public as well as first responders, press, volunteers, and others provide publicly available information on social media sites including online forums, blogs, public websites, and message boards. OPS is permitted to establish user names and passwords to form profiles on social media sites listed in Appendix A and to use search tools under established criteria and search terms such as those listed in Appendix B for monitoring that supports providing situational awareness and establishing a common operating picture.

### **1.3 Why is the information being collected, used, disseminated, or maintained?**

The NOC will identify, use, disseminate, and maintain this information to comply with its statutory mandate to provide situational awareness and establish a common operating picture for the entire federal government, and for state, local, and tribal governments as appropriate and to ensure that this information reaches government decision makers. The aggregation of data published via social media sites should make it possible for the NOC to provide more accurate situational awareness, a more complete common operating picture, and more timely information for decision makers.

### **1.4 How is the information collected?**

The NOC will identify information directly from third-party social media services. The NOC will access and collect information from various informational streams and postings that the NOC, as well as the broader public, view and monitor. See Appendix A for a list of the types of sites that may be viewed for information. See Appendix B for the types of search terms used in social media monitoring.

### **1.5 How will the information be checked for accuracy?**

The NOC will identify information from third-party social media services submitted voluntarily by members of the public and compares that information with information available in open source reporting and through a variety of public and government sources. By bringing together and comparing many different sources of information, the NOC will attempt to provide a more accurate picture of contemporaneous activities.

### **1.6 What specific legal authorities, arrangements, and/or agreements defined the collection of information?**

Congress requires the NOC "to provide situational awareness and establish a common operating picture for the entire federal government and for state, local, and tribal governments as appropriate, in the event of a natural disaster, act of terrorism, or other manmade disaster; and ensure that critical terrorism

and disaster-related information reaches government decision-makers.” Section 515 of the Homeland Security Act (6 U.S.C. § 321d(b)(1)). While the NOC may receive PII, PII is not actively collected and is not retrieved by personal identifier so a Privacy Act System of Records Notice is not required.

### **1.7 Privacy Impact Analysis: Given the amount and type of data collected, discuss the privacy risks identified and how they were mitigated.**

There is a risk that the NOC will receive PII or other identifiable information that is not relevant to this Initiative. The NOC has a clear policy in place that any PII incidentally received will be redacted immediately. Also, under this initiative OPS will not: 1) actively seek PII; 2) post any information; 3) actively seek to connect with other internal/external personal users; 4) accept other internal/external personal users’ invitations to connect; and 5) interact on social media sites. Information collected to provide situational awareness and establish a common operating picture originates from publicly available social media sites and is available to the public.

## **Section 2.0 Uses of the Information**

The following questions are intended to delineate clearly the use of information and the accuracy of the data being used.

### **2.1 Describe all the uses of information.**

The NOC will use Internet-based platforms that provide a variety of ways to follow activities by monitoring publicly available online forums, blogs, public websites, and message boards. Through the use of publicly available search engines and content aggregators, the NOC will continuously monitor activities on social media sites, such as those listed in Appendix A, using search terms, such as those listed in Appendix B, for information. The NOC will gather, store, analyze, and disseminate relevant and appropriate information to federal, state, local, and foreign governments, and private sector partners requiring and authorized to receive situational awareness and a common operating picture.

### **2.2 What types of tools are used to analyze data and what type of data may be produced?**

NOC analysts will be responsible for monitoring and evaluating information provided on social media sites and will use tools offered by third-party social media sites to aid them in this overall effort. The final analysis will be used to provide situational awareness and establish a common operating picture.

### **2.3 If the system uses commercial or publicly available data please explain why and how it is used.**

Publicly available, user-generated data can be useful to decision-makers as it provides “on-the-ground” information to help corroborate information received through official sources.

### **2.4 Privacy Impact Analysis: Describe any types of controls that may be in place to ensure that information is handled in accordance with the above described uses.**

The risk is that PII will be sent to the NOC unintentionally. This has been mitigated by the clear policy that any PII inadvertently collected shall be redacted immediately before further use and sharing. The Department is providing notice of all uses of information under this Initiative through this PIA. The NOC will not actively collect or use any PII.

## Section 3.0 Retention

The following questions are intended to outline how long information will be retained after the initial collection.

### 3.1 What information is retained?

The NOC will retain only user-generated information posted to publicly available online social media sites. Information posted in the public sphere that the Department uses to provide situational awareness or establish a common operating picture becomes a federal record and the Department is required to maintain a copy. However, the Department is working with the National Archives and Records Administration (NARA) on a retention schedule to immediately delete PII, upon the approval of this schedule by NARA, as well as to maintain records necessary for further use by the Department.

### 3.2 How long is information retained?

The NOC will retain information only long enough to provide situational awareness and establish a common operating picture. Information posted in the public sphere that the Department uses to provide situational awareness or establish a common operating picture becomes a federal record and the Department is required to maintain a copy. The Department is working with NARA on a retention schedule to immediately delete PII, upon the approval of this schedule by NARA, as well as to maintain records necessary for further use by the Department.

### 3.3 Has the retention schedule been approved by the component records officer and the National Archives and Records Administration (NARA)?

The Office of Records Management is working with NARA to establish an approved retention and disposal policy.

### 3.4 Privacy Impact Analysis: Please discuss the risks associated with the length of time data is retained and how those risks are mitigated.

The risk associated with retention of information is that PII will be retained when it is not necessary and that the information will be kept longer than is necessary. The NOC has mitigated this risk by redacting PII it inadvertently collects and is working with NARA on a retention schedule to immediately delete PII, upon the approval of this schedule by NARA, as well as to maintain records necessary for further use by the Department.

## Section 4.0 Internal Sharing and Disclosure

The following questions are intended to define the scope of sharing within the Department of Homeland Security.

#### **4.1 With which internal organization(s) is the information shared, what information is shared and for what purpose?**

Information will be shared within the NOC and with government leadership who have a need to know. The NOC is sharing this information for the statutorily mandated purpose of providing situational awareness and establishing a common operating picture.

#### **4.2 How is the information transmitted or disclosed?**

Information will be transmitted via email and telephone and by other electronic and paper means within the NOC and to government leadership where necessary and appropriate. PII will not actively be collected, but if pushed to the NOC, it will be redacted by the NOC before information is shared. The remaining data is analyzed and prepared for reporting.

#### **4.3 Privacy Impact Analysis: Considering the extent of internal information sharing, discuss the privacy risks associated with the sharing and how they were mitigated.**

The risk associated with sharing this information is that PII will be inadvertently collected and shared. The NOC has mitigated this risk by establishing effective policies to avoid collection of PII and to redact it if collected inadvertently. The NOC will only monitor publicly accessible sites where users post information voluntarily.

### **Section 5.0 External Sharing and Disclosure**

The following questions are intended to define the content, scope, and authority for information sharing external to DHS which includes federal, state and local government, and the private sector.

#### **5.1 With which external organization(s) is the information shared, what information is shared, and for what purpose?**

The NOC will use this Initiative to fulfill its statutory responsibility to provide situational awareness and establish a common operating picture for the entire federal government, and for state, local, and tribal governments as appropriate, and to ensure that critical disaster-related information reaches government decision makers. Information may also be shared with private sector and international partners where necessary, appropriate, and authorized by law.

#### **5.2 Is the sharing of personally identifiable information outside the Department compatible with the original collection? If so, is it covered by an appropriate routine use in a SORN? If so, please describe. If not, please describe under what legal mechanism the program or system is allowed to share the personally identifiable**

## information outside of DHS.

PII will not actively be collected. However, if pushed to the NOC, the PII will be redacted. Information is only collected to provide situational awareness and to establish a common operating picture.

### **5.3 How is the information shared outside the Department and what security measures safeguard its transmission?**

Information will be shared by phone, email, and other paper and electronic means.

### **5.4 Privacy Impact Analysis: Given the external sharing, explain the privacy risks identified and describe how they were mitigated.**

External sharing risks are minimal as the Initiative will not share PII; only information collected to provide situational awareness and to establish a common operating picture is shared.

## **Section 6.0 Notice**

The following questions are directed at notice to the individual of the scope of information collected, the right to consent to uses of said information, and the right to decline to provide information.

### **6.1 Was notice provided to the individual prior to collection of information?**

The Department may publicize its use of social media. The NOC does not, however, provide notice to specific public users who voluntarily provide user-generated information on publicly accessible social media sites. The NOC may retrieve public information from the social media sites, but will not interact with individual personal users.

### **6.2 Do individuals have the opportunity and/or right to decline to provide information?**

Information posted to social media websites is publicly accessible and voluntarily generated. Thus, the opportunity not to provide information exists prior to the informational post by the user.

### **6.3 Do individuals have the right to consent to particular uses of the information? If so, how does the individual exercise the right?**

Individuals voluntarily post information on social media sites and have the ability to restrict access to their posts as they see fit. Any information posted publicly can be used by the NOC in providing situational awareness and establishing a common operating picture.

### **6.4 Privacy Impact Analysis: Describe how notice is provided to individuals, and how the risks associated with individuals being unaware of the collection are mitigated.**

There is no requirement to provide notice to individuals under the framework applied under this

Initiative. Information posted to social media approved for monitoring under this Initiative is publicly accessible and voluntarily generated.

## **Section 7.0 Access, Redress and Correction**

The following questions are directed at an individual's ability to ensure the accuracy of the information collected about them.

### **7.1 What are the procedures that allow individuals to gain access to their information?**

Social media are public websites. All users have access to their own information through their user accounts. Individuals should consult the privacy policies of the services they subscribe to for more information.

### **7.2 What are the procedures for correcting inaccurate or erroneous information?**

Users may accidentally or purposefully generate inaccurate or erroneous information. There is no mechanism for correcting this. However, the community is largely self-governing and erroneous information is normally expunged or debated rather quickly by others within the community with more accurate and/or truthful information.

### **7.3 How are individuals notified of the procedures for correcting their information?**

There is no specified procedure for correcting information to DHS; if there was, it relates to a social media- provided process and not a DHS process. Individuals may change their PII on the sites as well as the accessibility of their content posts at any time they wish through their user account management tools on social media sites.

### **7.4 If no formal redress is provided, what alternatives are available to the individual?**

There is no specified procedure for correcting information to DHS; if there was, it relates to a social media-provided process and not a DHS process. Individuals may change their PII as well as the accessibility of their content posts at any time they wish through their user account management tools on the social media sites. Individuals should consult the privacy policies of the services to which they subscribe for more information.

### **7.5 Privacy Impact Analysis: Please discuss the privacy risks associated with the redress available to individuals and how those risks are mitigated.**

The information available on social networking websites is largely user-generated, which means that the individual chooses the amount of information available about himself/herself as well as the ease with which it can be accessed by other users. Thus, the primary account holder should be able to redress

any concerns through the third-party social media service. Individuals should consult the privacy policies of the services they subscribe to for more information.

## **Section 8.0 Technical Access and Security**

The following questions are intended to describe technical safeguards and security measures.

### **8.1 What procedures are in place to determine which users may access the system and are they documented?**

No procedures are in place. Social media sites are publicly available, third-party services.

### **8.2 Will Department contractors have access to the system?**

Yes, as it is required in the performance of their contractual duties at DHS.

### **8.3 Describe what privacy training is provided to users either generally or specifically relevant to the program or system?**

All DHS employees and contractors are required to take annual privacy training.

### **8.4 Has Certification & Accreditation been completed for the system or systems supporting the program?**

No. Social media sites are publicly available, third-party services.

### **8.5 What auditing measures and technical safeguards are in place to prevent misuse of data?**

This PIA will be reviewed every six months to ensure compliance. This will be done in conjunction with a Privacy Office-led Privacy Compliance Review of the Initiative and of OPS social media monitoring internet based platforms and information technology infrastructure.

### **8.6 Privacy Impact Analysis: Given the sensitivity and scope of the information collected, as well as any information sharing conducted on the system, what privacy risks were identified and how do the security controls mitigate them?**

These social media sites are publicly available, third-party services. Information is collected by the service itself to establish an account. Thereafter, users determine their level of involvement and decide how "visible" they wish their presence on any given service to be. The ability to choose how much information to disclose, as well as the short period of retention for any information collected by the NOC serves to mitigate any privacy risk.

## **Section 9.0 Technology**

The following questions are directed at critically analyzing the selection process for any

technologies utilized by the system, including system hardware, RFID, biometrics and other technology.

## 9.1 What type of project is the program or system?

Third-parties control and operate social media services. Users should consult with representatives of the service provider in order to make themselves aware of technologies utilized by the system.

## 9.2 What stage of development is the system in and what project development lifecycle was used?

Social media is active at all times and is third-party owned and operated.

## 9.3 Does the project employ technology which may raise privacy concerns? If so please discuss their implementation.

Individuals should consult the privacy policies of the services they subscribe to for more information.

## APPENDIX A

### Social Media Web Sites Monitored by the NOC

This is a representative list of sites that the NOC will start to monitor in order to provide situational awareness and establish a common operating picture under this Initiative. Initial sites listed may link to other sites not listed. The NOC may also monitor those sites if they are within the scope of this Initiative.

### APPENDIX B

#### Terms Used by the NOC When Monitoring Social Media Sites

This is a current list of terms that will be used by the NOC when monitoring social media sites to provide situational awareness and establish a common operating picture. As natural or manmade disasters occur, new search terms may be added. The new search terms will not use PII in searching for relevant mission-related information.

#### DHS & Other Agencies

Department of Homeland Security (DHS)  
 Federal Emergency Management Agency (FEMA)  
 Coast Guard (USCG)  
 Customs and Border Protection (CBP)  
 Border Patrol  
 Secret Service (USSS)  
 National Operations Center (NOC)  
 Homeland Defense  
 Immigration Customs Enforcement (ICE)  
 Agent  
 Task Force  
 Central Intelligence Agency (CIA)  
 Fusion Center  
 Drug Enforcement Agency (DEA)  
 Secure Border Initiative (SBI)  
 Federal Bureau of Investigation (FBI)  
 Alcohol Tobacco and Firearms (ATF)  
 U.S. Citizenship and Immigration Services (CIS)  
 Federal Air Marshal Service (FAMS)  
 Transportation Security Administration (TSA)  
 Air Marshal  
 Federal Aviation Administration (FAA)  
 National Guard  
 Red Cross  
 United Nations (UN)

#### Domestic Security

Assassination  
 Attack  
 Domestic security  
 Drill  
 Exercise  
 Cops  
 Law enforcement  
 Authorities  
 Disaster assistance  
 Disaster management  
 DNDO (Domestic Nuclear Detection Office)  
 National preparedness  
 Mitigation

Prevention  
 Response  
 Recovery  
 Dirty bomb  
 Domestic nuclear detection  
 Emergency management  
 Emergency response  
 First responder  
 Homeland security  
 Maritime domain awareness (MDA)  
 National preparedness initiative  
 Militia  
 Shooting  
 Shots fired  
 Evacuation  
 Deaths  
 Hostage  
 Explosion (explosive)  
 Police  
 Disaster medical assistance team (DMAT)  
 Organized crime  
 Gangs  
 National security  
 State of emergency  
 Security  
 Breach  
 Threat  
 Standoff  
 SWAT  
 Screening  
 Lockdown  
 Bomb (squad or threat)  
 Crash  
 Looting  
 Riot  
 Emergency Landing  
 Pipe bomb  
 Incident  
 Facility

#### HAZMAT & Nuclear

Hazmat  
Nuclear  
Chemical spill  
Suspicious package/device  
Toxic  
National laboratory  
Nuclear facility  
Nuclear threat  
Cloud  
Plume  
Radiation  
Radioactive  
Leak  
Biological infection (or event)  
Chemical  
Chemical burn  
Biological  
Epidemic  
Hazardous  
Hazardous material incident  
Industrial spill  
Infection  
Powder (white)  
Gas  
Spillover  
Anthrax  
Blister agent  
Chemical agent  
Exposure  
Burn  
Nerve agent  
Ricin  
Sarin  
North Korea

### **Health Concern + H1N1**

Outbreak  
Contamination  
Exposure  
Virus  
Evacuation  
Bacteria  
Recall  
Ebola  
Food Poisoning  
Foot and Mouth (FMD)  
H5N1  
Avian

Flu  
Salmonella  
Small Pox  
Plague  
Human to human  
Human to Animal  
Influenza  
Center for Disease Control (CDC)  
Drug Administration (FDA)  
Public Health  
Toxic  
Agro Terror  
Tuberculosis (TB)  
Agriculture  
Listeria  
Symptoms  
Mutation  
Resistant  
Antiviral  
Wave  
Pandemic  
Infection  
Water/air borne  
Sick  
Swine  
Pork  
Strain  
Quarantine  
H1N1  
Vaccine  
Tamiflu  
Norvo Virus  
Epidemic  
World Health Organization (WHO) (and components)  
Viral Hemorrhagic Fever  
E. Coli

### **Infrastructure Security**

Infrastructure security  
Airport  
Airplane (and derivatives)  
Chemical fire  
CIKR (Critical Infrastructure & Key Resources)  
AMTRAK  
Collapse  
Computer infrastructure  
Communications infrastructure

Telecommunications  
Critical infrastructure  
National infrastructure  
Metro  
WMATA  
Subway  
BART  
MARTA  
Port Authority  
NBIC (National Biosurveillance Integration Center)  
Transportation security  
Grid  
Power  
Smart  
Body scanner  
Electric  
Failure or outage  
Black out  
Brown out  
Port  
Dock  
Bridge  
Cancelled  
Delays  
Service disruption  
Power lines

### **Southwest Border Violence**

Drug cartel  
Violence  
Gang  
Drug  
Narcotics  
Cocaine  
Marijuana  
Heroin  
Border  
Mexico  
Cartel  
Southwest  
Juarez  
Sinaloa  
Tijuana  
Torreon  
Yuma  
Tucson  
Decapitated

U.S. Consulate  
Consular  
El Paso  
Fort Hancock  
San Diego  
Ciudad Juarez  
Nogales  
Sonora  
Colombia  
Mara salvatrucha  
MS13 or MS-13  
Drug war  
Mexican army  
Methamphetamine  
Cartel de Golfo  
Gulf Cartel  
La Familia  
Reynosa  
Nuevo Leon  
Narcos  
Narco banners (Spanish equivalents)  
Los Zetas  
Shootout  
Execution  
Gunfight  
Trafficking  
Kidnap  
Calderon  
Reyosa  
Bust  
Tamaulipas  
Meth Lab  
Drug trade  
Illegal immigrants  
Smuggling (smugglers)  
Matamoros  
Michoacana  
Guzman  
Arellano-Felix  
Beltran-Leyva  
Barrio Azteca  
Artistic Assassins  
Mexicles  
New Federation

### **Terrorism**

Terrorism  
Al Qaeda (all spellings)

Terror  
Attack  
Iraq  
Afghanistan  
Iran  
Pakistan  
Agro  
Environmental terrorist  
Eco terrorism  
Conventional weapon  
Target  
Weapons grade  
Dirty bomb  
Enriched  
Nuclear  
Chemical weapon  
Biological weapon  
Ammonium nitrate  
Improvised explosive device  
IED (Improvised Explosive Device)  
Abu Sayyaf  
 Hamas  
FARC (Armed Revolutionary Forces Colombia)  
IRA (Irish Republican Army)  
ETA (Euskadi ta Askatasuna) Basque Separatists  
Hezbollah  
Tamil Tigers  
PLF (Palestine Liberation Front)  
PLO (Palestine Liberation Organization)  
Car bomb  
Jihad  
Taliban  
Weapons cache  
Suicide bomber  
Suicide attack  
Suspicious substance  
AQAP (AL Qaeda Arabian Peninsula)  
AQIM (Al Qaeda in the Islamic Maghreb)  
TTP (Tehrik-i-Taliban Pakistan)  
Yemen  
Pirates  
Extremism  
Somalia  
Nigeria  
Radicals  
Al-Shabaab  
Home grown  
Plot

Nationalist  
Recruitment  
Fundamentalism  
Islamist

### **Weather/Disaster/Emergency**

Emergency  
Hurricane  
Tornado  
Twister  
Tsunami  
Earthquake  
Tremor  
Flood  
Storm  
Crest  
Temblor  
Extreme weather  
Forest fire  
Brush fire  
Ice  
Stranded/Stuck  
Help  
Hail  
Wildfire  
Tsunami Warning Center  
Magnitude  
Avalanche  
Typhoon  
Shelter-in-place  
Disaster  
Snow  
Blizzard  
Sleet  
Mud slide or Mudslide  
Erosion  
Power outage  
Brown out  
Warning  
Watch  
Lightening  
Aid  
Relief  
Closure  
Interstate  
Burst  
Emergency Broadcast System

**Cyber Security**

Cyber security
