

Maritime Patrol Aircraft (MPA) CASA 235-300M

MPA Characteristics

General Characteristics:

• Length	70.2 FT
• Wing Span	84.7 FT
• Cabin Length	31.6 FT
• Cabin Height	6.1 FT
• Cabin Width	Max Width 8.9 FT, Floor Width 7.7 FT
• Maximum Take-off Weight	36,380 lb
• Maximum Landing Weight	36,380 lb
• Maximum Payload	11,200 lb (Cargo Configured)
• Maximum Cruising Speed	236 KTAS
• Maximum Range	2,000 NM (MPA Configured)
• Range with 4000 kg Payload (8800 lbs)	1,030 NM (Cargo Configured)

• Engines	General Electric CT7-9C3 Turboprop Engines (2)
• Propellers	Hamilton Standard 14RF-37 (Four Blades)
• Endurance	11.5 HRS (MPA Configured)

Features:

- Proven Military Twin Turboprop
- Extended Range Fuel System
- Palletized Fully Integrated Tactical System
- Quick Change to Cargo or Passenger Role
- Rear Cargo Ramp

INTEGRATED COAST GUARD SYSTEMS
DEEPWATER
