Nextel's Guide
For
Law Enforcement

May 21, 2002

Court Order Compliance

Introduction

This Guide was prepared for Law Enforcement to facilitate the processing of subpoena requests and compliance with court orders for electronic surveillance directed to Nextel Communications, or any of its operating subsidiaries (collectively "Nextel"). This Guide references the Nextel points-of-contact that have been authorized to assist Law Enforcement with subpoena compliance, as well as with the provisioning of lawful interceptions of communications on Nextel's wireless networks. In addition, this Guide provides Law Enforcement with an overview of Nextel's current administrative practices and policies required to support these requests.

Any contacts made with, or information received from Nextel personnel other than those identified in this Guide for the subject matter identified, for the purposes indicated in this Guide, is neither authorized nor endorsed by Nextel. It is Nextel's policy to honor and act on only contacts made with and information received from identified, authorized contact persons.

Nextel Subpoena and Court Order Compliance Contacts

Law Enforcement should direct requests for subscriber information such as customer name, address, local and long distance telephone toll billing records; Fraudbuster Reports; Calls to Destination Searches; telephone number or other subscriber number or identity; subscriber's length of service, and types of services the subscriber utilizes. Submit request to:

Nextel Communications

Attention: Subpoena Compliance
2001 Edmund Halley Drive Mail stop 2E230
Reston, VA 20191

Contact Number: (703) 433-8860

Fax Number: (703) 433-8842

Law Enforcement should direct all inquiries regarding electronic surveillance, Title III, new court orders, court order extensions, court order cancellations, switch coverage, and real time location information to:

Nextel Communications

Attention: Law Enforcement Administrator
2001 Edmund Halley Drive Mail stop 2E200

Reston, VA 20191

Contact Number: (703) 433-4398

Fax Number: (877) 293-9824

Email: LEADMIN@Nextel.com

Hours of Operation

Nextel Communications Subpoena Compliance Department will be staffed from 8:00 a.m. to 8:00 p.m. Monday through Friday (E.S.T)

Court Order Compliance will be staffed from 8:30 a.m. to 11:00 p.m. Monday through Friday (E.S.T.)

Escalation Procedures for 24 x 7 Law Enforcement Support After Hours Support - Exigent Circumstances

Nextel Communications Law Enforcement Administrators are available 24 x 7 for legally recognized emergencies. In the event a Law Enforcement Agency (LEA) or Public Safety Answering Point (PSAP) needs to contact attempts to contact a Nextel Communications Law Enforcement representative support staff after business hours, the following procedures shall be followed. May be followed to escalate the matter.

The LEA or PSAP should call the Court Order Compliance contact number at (703) 433-4398. The LEA or PSAP should follow the instructions on the voicemail message regarding Exigent Circumstances. The on call Law Enforcement Administrator will be paged and return your call Nextel staff is committed to responding within 15 minutes of the voicemail message received. If a Law Enforcement Agency or PSAP does not receive a call back from the on call support staff within 15 minutes, an attempt should be made to page the on call person directly with the pager number listed on the voicemail message. In the event the LEA or PSAP If Agency does not receive a call back within 15 minutes, a call shall be placed to the agency should call the Nextel Communications Network Operation Center, (NOC) @ (888) 563- 9835. Inform the agency should inform the NOC personnel that a voice mail message was left on the main contact number for the Law Enforcement Representative support and an attempt to page the on call support staff directly was made. Inform the NOC personnel that you need to escalate the matter. The NOC is staffed 24 x 7 and will have a contact list of names and numbers of all authorized personal able to support LEA's Law Enforcement and PSAPs. The NOC personnel are only authorized to escalate the matter and will not be able to assist in the request for information or technical support. made by the Agency.

Exigent Circumstances Absent a Court Order

Only in the case of legally recognized emergency situations will Nextel process requests from LEA's without an authorized court order. In the event the LEA requires electronic surveillance or location information due to exigent circumstances, the LEA will be required to complete and sign the Exigent Circumstances Form (see Attachment A). Upon completion, this form must be forwarded to the appropriate Nextel point-of-contact. A request can also be provided on the LEA's or PSAP's letterhead or fax cover sheet containing the target information and circumstances surrounding the exigency.

The form should be forwarded to the on call Law Enforcement Administrator at the designated 24-hour fax. Nextel will not comply with any request for surveillance during exigent circumstances without a court order until Nextel has received the appropriate written request from Law Enforcement.

The LEA must provide the Nextel Law Enforcement Administrator with an authorized and valid court order within 48 hours of initiation of the associated surveillance activities. If Nextel has not received a court order within 48 hours of implementation of the electronic surveillance, Nextel will terminate the surveillance

Required Documentation for Subpoenas

Basic subscriber information will be provided to the LEA Law Enforcement upon receipt of the proper legal process or authorization. Nextel toll records include airtime and local dialing information on the subscriber's invoice in addition to any long distance charges. Nextel subscriber's invoice will provide the subscriber's dialed digits. Incoming phone numbers will be marked INCOMING and the incoming callers phone number will not be displayed.

The Fraudbuster database is a tool utilized by Nextel for fraud detection. The Fraudbuster database maintains 30 days of call detail records of incoming and outgoing calls. The information is not considered a transitional record and Nextel does not guarantee the accuracy of the report.

Nextel will provide a Fraudbuster report to the LEA law enforcement only if the agency agrees to pay an additional fee of \$50.00 per number, per request. The LEA Law Enforcement must specify in the subpoena "request to capture the incoming and outgoing call detail records thru the Fraudbuster Database." Nextel will not honor any request for incoming and outgoing call detail request without specifying Fraudbuster in the body of the subpoena. Nextel will not be able to process any request received outside of the data retention period of 30 days.

Nextel recycles phone numbers once a subscriber deactivates service. It is critical that all Subpoenas contain the Subscriber's PTN (the Nextel phone number assigned to the handset, including area code) and the relevant time frame of the requested information. This will insure that Nextel provides the correct subscriber information the agency is seeking.

Required Documentation for Court Orders

The Nextel Law Enforcement Administrator will review all court orders to verify that the court order contains the necessary information required to comply with the desired surveillance request. It is imperative that all court orders contain accurate and valid information to facilitate the implementation of the court order.

All court orders submitted to Nextel must contain the following customer information:

Subscriber's name and billing address if known
Subscriber's PTN (the Nextel phone number assigned to the handset, including area code)

Also requested but not required:

Subscriber's IMEI (International Mobile Equipment Identifier) and IMSI (International Mobile Subscriber Identifier).

If the customer information contained in the court order does not match the customer information found in the Nextel billing systems, Nextel will notify the LEA Law Enforcement that the court order must be modified.

In addition to accurate and valid customer information, it is imperative that Law Enforcement includes the following information be included in the court order:

Correct citation to relevant statutes for the type(s) of surveillance being requested.

Expiration date or the desired length of time for the surveillance.

If appropriate, text describing the desired surveillance requirements, if any, should Law Enforcement require surveillance beyond the jurisdiction of the authorizing court.

If appropriate, text describing the desired surveillance requirements, if any, should the target subscriber change handsets or the associated PTN.

Besides the formal documentation that is required in the actual, official court order, Nextel requires some additional information to complete the administration and implementation of the court order. All of this information should be provided in writing, but the documentation can be as informal as a written request on an agency's letterhead or fax cover sheet. This information includes:

The dial-up number for all Title III requests

The Nextel switches to be included in the desired surveillance

The Nextel switches to be added to an existing surveillance

The desire to request the termination of a court order prior to the authorized expiration date

The billing name and address for the Law Enforcement agency so that Nextel can be reimbursed for reasonable costs associated with the surveillance

Billing Information

Nextel will seek reimbursement from Law Enforcement for reasonable costs associated with supporting and maintaining Law Enforcement requests on the Nextel wireless network, as authorized through applicable statutes. At the conclusion of each service provided, Nextel will invoice the LEA Law Enforcement for the appropriate fees associated with that request. The LEA Law Enforcement shall be responsible for reimbursing Nextel in a timely manner.

Nextel reserves the right to change the rate structure at any time to ensure compensation for reasonable costs associated with supporting Law Enforcement Requests. The current rate structure is as follows:

Installation Fees

Initiation charge for Interconnect and Dispatch Pen Register or Title III Wiretap - \$1500 per target

The \$1500 charge will include installation in all requested switches within the market. In the event that the law enforcement agency requests that the court

order be implemented in a switch outside of that market, Nextel will charge an additional \$500 per target, per switch outside of that initial market.

Monthly maintenance fee for Interconnect and Dispatch Pen Register or Title III Wiretap - \$250 per target

The \$250 charge will be applied for each month after the month of initiation, and the monthly maintenance charge will be applied for partial months. A partial month will be billed as a complete month of maintenance. No pro-rating will be done by Nextel.

Charge for providing "real-time" location information (pinging a phone) - \$150 per ping

Charge for Call-to-Destination Searches or cell site information - \$125 per number, per request

Charge for providing call detail cell site support via reports from Nextel's fraud management system - \$125 per target, per report

Charge for providing call detail support via reports from Nextel's fraud management system - \$50 per target, per report

Additional Cost

In addition to the standard fees that are charged for the installation and maintenance of each electronic surveillance request, LEA's Law Enforcement may also be requested to pay for the service and airtime charges that a subscriber incurs to keep the account active, if the account is delinquent or has been identified as a possible fraudulent account.

Exigent Circumstances Absent a Court Order

Only in the case of legally recognized emergency situations will Nextel process requests from law enforcement without an authorized court order. In the event Law Enforcement requires electronic surveillance or location information due to exigent circumstances, Law Enforcement will be required to complete and sign the Exigent Circumstances Form (see Attachment A). Upon completion, this form must be forwarded to the appropriate Nextel point-of-contact. A request can also be provided on the Agencies letterhead or fax cover sheet containing the target information and circumstances surrounding the exigency.

The form should be forwarded to the on call Law Enforcement Administrator at the designated 24-hour fax. Nextel will not comply with any request for surveillance during exigent circumstances without a court order until Nextel has received the appropriate written request from Law Enforcement.

Law enforcement must provide the Nextel Law Enforcement Administrator with an authorized and valid court order within 48 hours of initiation of the associated surveillance activities. If [text missing]

Court Order Duration

Nextel Communications, personnel capable of terminating access to a pen register, trap and trace or eavesdropping warrant are generally not on duty outside the hours of 8:00 am and 11:00 p.m. (E.S.T) Monday through Friday.

Nextel will notify the LEA law enforcement agency in writing that we intend to disable the surveillance access according to the instructions in the court.

Technical Support for Electronic Surveillance

In the event that an LEA loses its Interconnect or Dispatch wiretap capability, the LEA should contact Nextel's Law Enforcement Administrator at (703) 433-4398. The Law Enforcement Administrator at Nextel will work with the LEA to determine whether the outage is due to the closure of a target account or a provisioning issue (i.e. termination of a warrant).

If the wiretap failure is due to a closed account or a provisioning issue, the Law Enforcement Administrator will advise the LEA accordingly.

If the wiretap failure is not due to a closed account or a provisioning issue, the Law Enforcement Administrator will open an internal trouble ticket and the appropriate Nextel personnel will be engaged to troubleshoot up to the LEA DMARC. Once the issue has either been resolved or ruled out by Nextel's engineers as a Nextel issue, the LEA will be contacted by the Law Enforcement Administrator and updated as to the findings. If the problem is identified to be on LEA's side (i.e. a LEM or LEAR failure), it is the LEA's responsibility to troubleshoot from the DMARC back to their collection facility.

In the event that the LEA needs to gain access to the Nextel MSO during normal business hours, Nextel Security and Fraud will coordinate the date and time of access to Nextel's MSO and MSO personnel will grant access to the facility provided that the LEA presents a picture ID for proper identification. No one may enter the Nextel MSOs without proper identification, or prior coordination with Nextel's Law Enforcement Administrator. If the failure is identified during non-business hours, Nextel will provide access to the MSO on the next business day. If the failure occurs during a live wiretap, Nextel will provide access to the MSO as soon as reasonably possible.

Surveillance Requests for Nextel Partners

Nextel Partners, Inc., based in Kirkland, Washington is a digital mobile wireless service provider licensed to use the Nextel brand in throughout the United States. The company offers its customers the same differentiated, integrated package of digital wireless communications services that Nextel provides customers in its markets allowing customers to roam between the two companies. Although Nextel Partners is a separate company from Nextel, Nextel has agreed to offer Nextel Partners operational support implementing electronic surveillance. Current Nextel Partners Markets are:

Alabama	Auburn, Dothan, Mobile, Montgomery, Opelika
Arkansas	All of Arkansas
Florida	Tallahassee
Georgia	Macon, Warner Robbins, Albany, Columbus

Dear Sir/Madam:

Nextel Communications has received a court order from your agency for the above telephone(s). Pursuant to United States v. Gangi, 33 F.Supp.2d 303 (S.D.N.Y. 1999) and according to your order Nextel calculates that the authorization for the court-ordered access will expire on the following date:

Your order states:
FORMCHECKBOX from date of order
FORMCHECKBOX from implementation
FORMCHECKBOX when agency begins collecting

Your order was implemented on _____ @ _____ EST.

FORMCHECKBOX Interconnect
FORMCHECKBOX Digital Dispatch

Pen Register _____ Pen Register _____

Trap and Trace _____ Trap and Trace _____

Eavesdropping _____ Eavesdropping _____

Please be advised that Nextel Communications maintains regular business hours of 8:00 a.m. to 11:00 p.m. (E.S.T), Monday through Friday. In order to comply with the orders served upon Nextel Communications, Nextel will terminate access at the above referenced date and time unless Nextel is served with an extension order beforehand or the Court Order specifies an exact time the surveillance must be terminated.

Please verify the billing address listed above. Please contact our office via fax at (877) 293-9824 to update our records with the correct address if applicable.

Please feel free to contact a Law Enforcement Administrator at (703) 433-4398 if you have any questions.

Appendix B

EXIGENT CIRCUMSTANCES FORM

From:

(Name/Title/Law Enforcement Agency/Phone Number)

Subject: Emergency Interception/Installation

I hereby certify that I am specially designated by the Attorney General, the Deputy Attorney General, the Associate Attorney General or the principal prosecuting attorney of the State or subdivision thereof acting pursuant to a statute of that State.

I have reasonably determined that an emergency exists that involves immediate danger of death or serious physical injury (i.e., murder or kidnapping), conspiratorial activities threatening the national security interest (i.e., a terrorist bomb or plot), or conspiratorial activities characteristic of organized crime (i.e., mob-related activity, not including drug sales) that requires interception of communications; installation of a trap and trace or pen register; or the release of cell site information; location information or subscriber information before an order authorizing it can be obtained, in due diligence, from a court.

I have determined that there are grounds upon which an order could be entered to authorize such interception, that no warrant or order is required by law, that all statutory requirements have been met and that carrier assistance as specified in Section 1 is required.

An application for an order will be made within 48 hours after the interception or installation has occurred or begins to occur. You are directed to cease all interception activities or remove the trap and trace or pen register device upon the earliest of:

48 hours if no order authorizing interception or installation is received; the communication or information sought is obtained; or notification that the application for an order has been denied.
