Dear Sir,

ProEnergy EPC Services is pleased to provide our detailed turnkey proposal for the design, construction, installation and commissioning of a (2) Unit Frame 7EA plant at an existing site within the General Rafael Urdaneta Termoelectric Power Complex south of Maracaibo. We have made a site visit and met with the ENELVEN engineering department to fully understand the location of the plant and the interface points with the other existing Termozulia plants.

### **Scope of Work**

Attached is our Technical Scope Document (TSD) which describes in detail, the scope of supply we have included in this proposal. Based on our understanding of the site requirements, our scope includes everything required to complete the construction of the plant at the Termozulia site. This includes but is not necessarily limited to the following:

- All Civil Works required for the construction and installation of the plant.
- All Mechanical Works required to erect and assemble the equipment including piping, structural supports, etc. as completely described in the TSD.
- All Electrical Works required to install the interconnect control cabling, power cabling, testing and commissioning of the plant.
- All Project Management required to coordinate the work and maintain the Project Schedule as defined in the TSD.
- All Engineering required to design the plant including both conceptual and detailed.
- All startup, commissioning and testing of the plant to prove successful operation prior to putting the plant into commercial operation.

### **Schedule**

As defined in Section 8 of the TSD and based on our past experience in constructing "Fast Track" Frame 7EA projects, we can complete the construction of this plant in (8) months from contract execution and receipt of down payment.

## **Price**

The firm fixed price for the turnkey construction of the plant as described in the attached TSD is **US\$ 45,635,000.00 + Bs 83,190,000.00**

The price for the Conversion of the (2) Frame 7EA Gas Turbine Packages from Gas Fuel to Dual Fuel is **US\$ 6,000,000.00**.

## **Payment Terms and Commercial Terms & Conditions**

ProEnergy EPC Services will negotiate in good faith commercial terms and conditions which are mutually acceptable to both parties.

## **Validity**

This proposal is valid for a period of (60) days.

We appreciate the opportunity to provide this proposal and look forward to providing the turnkey services to construct this plant on a fast track basis.

Sincerely,

ProEnergy EPC Services
