---

We have an agreement; I just don't have a copy signed by Derwick.

Attached is the copy signed by ProEnergy.

Joaquin, will you follow up with Derwick and see that they send us a copy of the contract signed by them. As you will recall they were traveling at the time we signed and they were having difficulty getting us a fax or scanned copy of their signature.

Do you have this agreement yet? Jeff is wondering why I haven't billed it yet.

Thanks

Scott,

Did we ever get a signed copy of the agreement between EPS and Derwick for the sale?

Here are the packing lists which show the locations of the equipment. All at or near the GE facility in Houston.

See email below from the seller which has some added info on the equipment location(s).

Also attached is the signed contract and a copy the GE contract (which provides a description of the equipment).

We need to go forward and get the insurance as we discussed. We will need it next week. Be sure to include the seller as an added insured and provide us with a certificate so that we can send to the seller.

Thanks,

Scott Dieball

Ok thanks greg.

A further detail then is a rough est of the value of those smaller pieces remaining in the separate locations.

Subject: Chula Vista Units # 1 & 2 Storage Locations and Contacts

Denis,

I have attached the equipment list for both units as well has the storage location for each. Below I have provided the contact information for each location. Per GE's logistics team, we will not be able to move all of the equipment to Palletized Storage for the following reasons:

Each of the storage locations are setup to handle certain load limits in both size and weight. In order to meet GE's needs for storage, it is necessary not to send the smaller equipment to the locations that can handle the largest loads, in order not to "bog down" these locations with the large amount of smaller sized equipment. The smaller sized equipment is stored at locations such as Dixie Crating and Shipline crating.

- \* Palletized: Ronnie Moon 713-490-6855
- \* Dixie Crating Jessica Walden 713.921.7755 (Ext: 2005)
- \* Shipline Crating Naide Maldonado, Honeycut 281-457-2647

Although only one generator is listed on one of the spreadsheets, both generators are at:

\* Texas Terminals

15902 Peninsula blvd Houston, TX 77015  
gen 410068700 is DR84835 and 410068703 DR85869.

Please let me know if you have any questions or need any additional information.

Thanks,  
Greg Davis, P.E.
