

SITE SERVICES

Energy Parts Solutions is also providing the installation, startup and commissioning of the plant. This would include providing construction supervision as well as startup engineers for all equipment provided.

Energy Parts Solutions can also provide an experienced service representative to assist the operating personnel during the first (2) months after the Equipment goes online.

EXCLUSIONS

ProEnergy has excluded these items listed below from our offering. Any other equipment or service not described in our written proposal is also excluded.

- Absorption chiller and chilled water supply system
- Balance of plant and energy optimization controls
- Bus bars and bus duct beyond generator lineside and neutral enclosures
- Cooling tower and circulating water system
- Deaeration and chemical injection equipment
- Distributed plant control
- Filter house support structure, other than standard
- Fuel, fluids and chemicals
- Fuel storage tanks, forwarding equipment and primary fuel filter
- Gas compression, filtration, and separation or regulation equipment
- Heat recovery boiler and blow down controls
- High voltage transformer(s), cables, switchgear and associated equipment
- Interconnecting piping, conduit, and wiring between equipment modules (site layout is unknown at this time)
- Plant utilities
