These changes are acceptable to RR. We intend to have the document signed and returned tomorrow due to availability of officers of the company to sign the agreement.

For clarity, attached is an updated packing list to reflect the scope of supply. As stated in a previous email some of the scope is being excluded because it has not been completed. These items include the CEMS, exhaust system and supporting steel work, and Lube Oil Vent Pipe Assembly (Only required if installed in building). These items could be purchased but currently is excluded from the \$19 M purchase price.

Best regards,

John March

John,

Per our t/c, attached is a redline and clean copy of the agreement.

I also put in today's date and you will need to insert the state where RR is incorporated in the first paragraph.

If acceptable, plz have RR execute and email back and once received, we will do the same.

As mentioned, as soon as this agreement is executed by both parties, ProEnergy is ready to immediately commence and close on the purchase of the units with GDF Suez.

Thanks,

Scott Dieball
