Scott,

Thanks for your answer. For completeness on this issue, we have an EPC contract with Centrax, sale representative and packager for Rolls Royce in Europe. So we have warranties with Centrax, of course associated to the site of our original project. But beyond the only scope of warranties, as your project is outside Europe, Rolls Royce has also to be involved on this issue.

I will try to organize a conf call with you and my contract manager, Olivier Salord, as soon as possible.

Best regards,

Florent Bergeret

Thanks for your phone message Florent, and as I am still tied up on a conference call, I will attempt to respond to your enquiry via email.

In purchasing the units from GDF we do not expect that GDF will be warranting the equipment (hence the AS IS language) other than it will warrant that we get good title in and to the equipment. That being said we have spoken to Rolls Royce and they have indicated that they will honor the OEM warranty provided in the original RR-GDF purchase agreement subject to modifications for differing site conditions, etc. As you will note from the draft contract I sent to you last week, once the contact is executed between our respective companies, ProEnergy would like

GDF to provide us with a copy of the RR-GDF purchase agreement so that we can review it as part of our due diligence to ensure, among other things, that the warranty coverage afforded by RR meets our needs.

If this reply does not answer your question or if we need to discuss further please let me know and perhaps we could set up a conf. call.

Regards,

Scott Dieball

Subject: Trent packages sale

Importance: High

Scott,

I just leave you a message on your cellular regarding the sale of the 4 Trent packages.

Can you confirm me you want a sale on an 'as is' basis especially without any warranty, according to section 4.1 (j) of your PSA.

Thanks for your answer.

Best regards,

Florent Bergeret
