Asunto Fw: Rolls-Royce Assignment 4519D Montreal Canada

Buenos dias Sr. eusebio, en el caso de las tres turbinas que se encuentran en Canada solo se podra realizar una revision de documentos, como puede observar en la nota anexa los contenedores segun el suplidor no se pueden abrir por que representarian un costo adicional, y son equipos nuevos bajo garantia, espero sus instrucciones al caso.

Subject RE: Rolls-Royce Assignment 4519D Montreal Canada

Leiro,

Por favor ten en cuenta que los Engines se encuentran herméticamente sellados en recipientes con gas para su protección. Abrir dichos recipientes incurrirá en un COSTO ELEVADO ADICIONAL por cada uno de ellos. Por otra parte te recuerdo que los engines se encuentran en las instalaciones de RR y los mismos son completamente nuevos. Derwick es responsable a nivel contractual por cualquier pieza BASICA que pueda impedir la operacion del equipo. Por favor haz de nuestro conocimiento si PDVSA esta en la disposicion de cubrir los costos adicionales que representaría abrir cada uno de estos recipientes sellados.

Saludos cordiales,

Omar Petit

Leiro:

Visit today not possible due to non-accessibility of the equipment.

"I contacted Ms. Nausica Budeanu to schedule a visit at RR on Jan. 29, and was informed that in order for us to inspect the engines they have to be moved from the warehouse and transported to the RR shop in Lachine, since all three of them are in the transport cases and inaccessible at the interior. They need instructions from RR Mt. Vernon for the proceedings. Furthermore, she stated there is a charge for this operation. Please let me know of the next step."
