- |                             |   |
|-----------------------------|---|
| (1) NUMMER INDEX            | geeft een overzicht van alle titels en auteurs in nummer volgorde.  |
| (2) PERMUTED<br>TITLE INDEX | rangschikt alle Accentwoorden (Keywords) in de titel alfabetisch met verwijzing naar het nummer van de Paper. |
| (3) AUTEURS INDEX           | bevat de nodige bibliografische gegevens, alfabetisch gerangschikt naar Auteursnamen.                         |

Naar aanleiding van een Accentwoord (Keyword) kan men in de Permuted Title Index (2) het nummer van de desbetreffende Paper vinden.

Dit nummer verwijst naar de volledige titel van het artikel en de auteur(s) in Index (1), waarna men in Index (3) de volledige bibliografische gegevens kan terugzoeken.

+++

Deze "PERMUTED TITLE INDEX" is naast het KWIC-Project een afronding van de tweede phase - Machine Indexing - in het kader van de automatisering van de M.C. Bibliotheek.

De drie bovengenoemde Indexen worden samengesteld uit een basis tape, waaruit eveneens de bibliotheek-kaarten zijn gereproduceerd.

De Opmaak- resp. Alfabetiseringsprogramma's zijn verzorgd door de heren H.L. OUDSHOORN en E.G.M. BROERSE van de Reken Afdeling; de Titel-beschrijving door de heer H.A. MEYER.
