# New Features

This new features guide covers the new features for ER/Studio Data Architect version 9.7.1:

## Release 9.7 features summary:
In addition to many bug fixes, 9.7 offers the following new features.

- Teradata Support
  - [Teradata - NUMBER data types](#)
  - [Teradata - View syntax](#)
  - [Teradata - Table and Column definitions](#)
- UI Enhancements
  - [UI - Expand/Collapse in Get Diagram UI](#)
  - [UI - "Retain View" setting in Get Diagram UI](#)
  - [UI - Automatically Backup Local Files on Get](#)

## Teradata - NUMBER data types
The NUMBER datatype is now supported for Teradata 14.

## Teradata - View syntax
The Teradata view syntax "count * over" is now supported.

## Teradata - Table and Column definitions
Comparing against Teradata now supports table and column definitions.

## UI - Expand/Collapse in Get Diagram UI

The product includes the option to expand a collapsed node in the Get Repository Diagram explorer showing all descendant nodes.

## UI - "Retain View" setting in Get Diagram UI

The state of the explorer tree in the Get Repository Diagram dialog is now retained upon exiting.

## UI - Automatically Backup Local Files on Get

An option to automatically/always backup local copy of a dm1 file during a get is now available.
