Curve Fitting Toolbox Release Notes

Note There were no significant updates to the Curve Fitting Toolbox for Version 1.1.3. One bug fix is noted.

For a description of changes to the current release, see in “Major Bug Fixes” on page 1-2 of the Version 1.1.3 Release Notes.

If you are upgrading from a version prior to Version 1.1, you should see “Curve Fitting Toolbox 1.1 Release Notes” on page 2-1.

Printing the Release Notes

If you would like to print the Release Notes, you can link to a PDF version on the MathWorks Web site.

Curve Fitting Toolbox 1.1.3 Release Notes

Major Bug Fixes 1-2
cftool No Longer Prompts to Save Session if Nothing Changed 1-2

Major Bug Fixes

The Curve Fitting Toolbox Version 1.1.3 includes several bug fixes made since Version 1.1. One of particular note is the following:

cftool No Longer Prompts to Save Session if Nothing Changed

The `cftool` graphical user interface now prompts you to save your session when you quit only if you have changed something (created data sets, created fits, etc.) since your last save. Prior to this release `cftool` would unconditionally prompt you to save every time you quit.

Curve Fitting Toolbox 1.1 Release Notes

New Features 2-2
Exclude GUI 2-2
Viewing Data Numerically 2-2

Upgrading from an Earlier Release 2-3
Exclude GUI 2-3
Viewing Data Numerically 2-3

New Features

This section summarizes the new features and enhancements introduced in the Curve Fitting Toolbox 1.1.

Note The Curve Fitting Toolbox 1.1 incorporates features introduced in the Curve Fitting Toolbox 1.0, which was initially released in Web-downloadable form after Release 12.1 was released.

Exclude GUI

The Exclude pane of the Data GUI has been removed. To exclude and section data, a separate Exclude GUI is now available. You can open this GUI by selecting the **Exclude** button on the Curve Fitting Tool.

Viewing Data Numerically

The View pane of the Data GUI has been removed. To view data numerically, you can use:

- The Data Sets pane of the Data GUI to view imported data
- The Smooth pane of the Data GUI to view a smoothed data set
- The Exclude GUI to view existing exclusion rules.

Upgrading from an Earlier Release

This section describes the upgrade issues involved in moving from the Curve Fitting Toolbox 1.0 to Version 1.1.

Exclude GUI

The Exclude pane of the Data GUI has been removed. To exclude and section data, a separate Exclude GUI is now available. You can open this GUI by selecting the **Exclude** button on the Curve Fitting Tool.

Viewing Data Numerically

The View pane of the Data GUI has been removed. To view data numerically, you can use:

- The Data Sets pane of the Data GUI to view imported data
- The Smooth pane of the Data GUI to view a smoothed data set
- The Exclude GUI to view existing exclusion rules.
