The software described in this document is furnished under a license agreement. The software may be used or copied only under the terms of the license agreement. No part of this manual may be photocopied or reproduced in any form without prior written consent from The MathWorks, Inc.

FEDERAL ACQUISITION: This provision applies to all acquisitions of the Program and Documentation by, for, or through the federal government of the United States. By accepting delivery of the Program or Documentation, the government hereby agrees that this software or documentation qualifies as commercial computer software or commercial computer software documentation as such terms are used or defined in FAR 12.212, DFARS Part 227.72, and DFARS 252.227-7014. Accordingly, the terms and conditions of this Agreement and only those rights specified in this Agreement, shall pertain to and govern the use, modification, reproduction, release, performance, display, and disclosure of the Program and Documentation by the federal government (or other entity acquiring for or through the federal government) and shall supersede any conflicting contractual terms or conditions. If this License fails to meet the government's needs or is inconsistent in any respect with federal procurement law, the government agrees to return the Program and Documentation, unused, to The MathWorks, Inc.

# R2012b

Version: 5.10 New Features: No Bug Fixes: Yes

## R2012a

Version: 5.9 New Features: Yes Bug Fixes: Yes

#### **Back-to-Model Enhancement**

The back-to-model functionality has been enhanced:

- Previously, if a source code line contained a macro with a Polyspace<sup>®</sup> check, you could not use the right-click context menu item **Back to Model**. This limitation has been removed.
- Previously, the context menu item **Back To Model** would work only if the Polyspace check was enclosed by the tags //#[ and ]#//. This restriction has been removed.
