Microsoft® Windows NT® Version 4.0 Hardware Compatibility List

The following computers and peripherals have been tested and have passed compatibility testing with Windows NT 4.0. Some computers may be sold with peripherals that are not yet supported by the Windows NT operating system, or that require a device driver supplied by the manufacturer. We have not tested every computer and/or device in all possible configurations. Please refer to the Release Notes for additional compatibility information when installing Windows NT 4.0.

Attached as an addendum is the current listings of Windows NT 3.51 only tested uniprocessor Computers; this includes the x86, MIPS®, Digital Alpha and PowerPC™ platforms. All computer systems listed in this addendum are expected to run with Windows NT 4.0. If you encounter problems while running Windows NT 4.0, please file a bug report by filling out 'PROBREP.TXT' located in the \i386 directory on the Windows NT 4.0 CD-ROM or floppy disk #2 of the Windows NT 4.0 installation disks and submit it as instructed in PROBREP.TXT. If you have any questions or comments about the problem reporting process, please contact ntbug@microsoft.com.

Items listed with footnote number¹ require one of the device drivers available in the \DRVLIB directory on the Windows NT 4.0 CD-ROM.

Updates to the Windows NT 4.0 Hardware Compatibility List will appear on the World Wide Web at <http://www.microsoft.com/hwtest>.

x86 Architecture Uniprocessor Computers

The following x86 architecture uniprocessor systems have been tested.

PCMCIA Add-In Adapters

The following PCMCIA add-in adapters have been tested on the indicated platforms.

PCMCIA Add-In Adapters	Bus	x86	MIPS	Alpha	PowerPC
Linksys Desktop PCMCIA Card Slots	ISA	X			
Maxtor MobileMax DeskRunner	ISA	X			
Eiger Labs Four Slot PCMCIA ISA Adapter	ISA	X	X	X	X
Eiger Labs Two Slot PCMCIA ISA Adapter	ISA	X	X	X	X
Adaptec™ CardPack APA-4510	ISA	X			
SCM SwapBox Classic	ISA			X	

SCSI Host Adapters

The following SCSI adapters have been tested on the indicated platforms with the following scanner, CD-ROM, tape, fixed and removable drives (except as noted): Hewlett-Packard® ScanJet® 4c⁹, NEC CDR-502 6X, Sony® CDU-76S, Hewlett-Packard SureStore 6000i, Quantum XP32150, Iomega® Zip Drive 100. SCSI adapters indicated as Wide SCSI were also tested with 2gb Wide SCSI fixed drives.

SCSI CD-ROM Drives

The following SCSI CD-ROM drives have been tested with the following adapters: AHA-1542CP, AHA-2742, and AHA-2940; NCR 8100S and 8250S, and are supported on x86, MIPS, Alpha, and PowerPC platforms except as noted. Drives have been tested for data access as well as for the audio capabilities indicated.

SCSI Tape Drives

The following SCSI tape drives have been tested with the following adapters using the Windows NT Backup program: AHA-1542CP, AHA-2742, and AHA-2940; NCR 8100S and 8250S, and are supported on x86, MIPS, Alpha, and PowerPC platforms except as noted. Drives are listed under their appropriate Tape entry in the Control Panel Tape Devices applet.

Video Capture Adapters

The following video capture devices have been tested on the x86, MIPS, and Alpha, and PowerPC platforms except as noted.

Creative Labs VideoSpigot for Windows ¹

Video Display Support

The following display adapters have been tested on x86 architecture systems. Most common scan frequencies are supported. Your video monitor should support the same resolutions and scan frequencies as your display adapter. Please refer to Windows NT 4.0 Release Notes for more information on display support.

The following display adapters have been tested on Digital Alpha architecture systems. Most common scan frequencies are supported. Your video monitor should support the same resolutions and scan frequencies as your display adapter. Please refer to Windows NT 4.0 Release Notes for more information on display support. In order for some video cards to work in your computer, a firmware upgrade might be necessary. Please contact your specific vendor to find out which cards will work for your Alpha computer.

The following video cards have been certified on Motorola PowerPC systems with firmware revision level 3.04. Contact your local Motorola Computer Group Sales office for more information on obtaining this firmware revision. Most common scan frequencies are supported. Your video monitor should support the same resolutions and scan frequencies as your display adapter. Please refer to Windows NT 4.0 Release Notes for more information on display support. In order for some video cards to work in your computer, a firmware upgrade might be necessary. For other types of PowerPC systems, please check with your system manufacturer for a list of supported video cards.

Display adapters not listed above are expected to work if they use the following supported chip sets. If the adapter is one of the internally supported chipsets select the detect option and it will install the driver. If the adapter is not one of the supported chipset install first as Standard VGA, then select the corresponding driver from the Display Applet in the Control Panel or choose the "Have Disk" option.

Please note that Microsoft does not recommend using any 8-bit network adapter with the Windows NT platform. These adapters have lower performance and are generally no longer available for purchase. They are included because a driver exists for them and companies sometimes need to run older hardware before migrating to newer equipment.

ISDN Adapters

The following ISDN adapters have been tested for use with Remote Access Service, and are supported on the indicated platforms.

ISDN Adapters	Bus	X86	MIPS	Alpha	PowerPC	Primary Rate (PRI)	Primary Rate (BRI)
Digiboard DataFire 4 ST	ISA	X	X	X	X		X
Digiboard DataFire ST	ISA	X	X	X	X		X

Hardware Security Hosts

The following hardware security hosts have been tested for use with Remote Access Service, and are supported on x86, MIPS, and Alpha, and PowerPC platforms except as noted.

Digital Pathways Defender 1000D
 Racal Gaurdata GSM
 Security Dynamics ACM400

Multi-port Serial Adapters

The following multi-port serial adapters have been tested for use with Remote Access Service, and are supported on x86, MIPS, Alpha platforms, and PowerPC Platforms except as noted.

Control RocketPort 8^{1,134}
 Consensus ChiliPORTS/16 RAS Adapter¹
 DigiBoard 2Port
 DigiBoard 4Port
 DigiBoard 8Port
 DigiBoard CX Adapter
 DigiBoard DigiCHANNEL PC/X Host Adapter for ISA bus¹³⁵

 DigiBoard PC/Xem Adapter

Third Party Remote Access Servers

The following third party remote access servers have been tested for use with Remote Access Service on the Windows NT 4.0 Workstation. See Remote Access readme file (rasread.txt) for details on third party product versions supported.

Shiva LAN Rover
 Telebit NetBlazer
 Cisco
 3Com/Centrum AccessBuilder

Keyboards

Any keyboard 100% compatible with those listed below.

101/102-key
 IBM AT (84-key)¹³⁶

Pointing Devices

Any pointing devices 100% compatible with those listed below.

Logitech Mouse, all versions
Microsoft Mouse, all versions

Printers

Drivers are included for the following printers, and are supported on x86, MIPS, Alpha, and PowerPC platforms except as noted.

Technical Notes

The Windows NT Driver Library is provided on the Windows NT CD-ROM in the \DRVLIB directory, as well as several locations for electronic transmission. Please see the section at the end of this document for instructions on downloading and accessing Windows NT Driver Library drivers.

1. This device requires a driver from the \DRVLIB directory on the Windows NT CD-ROM, or the Windows NT Driver Library.
2. This system has been tested with the NeoMagic video driver located in the \drvlib\video\x86\neomagic directory located on the Windows NT 4.0 CD-ROM.
3. This system has been tested with the ESS audio driver located in the \drvlib\audio\ess directory located on the Windows NT 4.0 CD-ROM.
4. PCMCIA network adapters not supported when configured at IRQ 10 on this model.
5. This system has been tested with the Chip & Technologies video driver located in the \drvlib\video\x86\chips directory located on the Windows NT 4.0 CD-ROM.
6. This system has been tested with the the Trident 9320 video driver located in the \drvlib\video\x86\trident directory located on the Windows NT 4.0 CD-ROM.
7. This system has been tested with the IBM Mwave for Thinkpad driver located in the \drvlib\mwave directory located on the Windows NT 4.0 CD-ROM. Refer to Windows NT 4.0 Release notes for installation instructions.
8. COMPAQ ProLiant 5000 systems with Bios revision dated 06/04/96 or earlier may experience shutdown/restart problems with Windows NT 4.0. If this problem is encountered then upon completing a shutdown a powercycle is required to successfully reboot the system. Contact COMPAQ for a BIOS upgrade.
9. Supported on x86, Alpha, and PowerPC platforms only.
10. For best performance, this adapter should be configured to IRQ-11.
11. This adapter is only supported for use with IBM PowerPC Systems.
12. Tested with firmware revisions 3.10 and 3.20.
13. This adapter must be configured for synchronous I/O to work with the Quantum xp32150 hard disk drive.
14. This adapter requires an active terminator for proper performance.
15. This adapter must be configured for 5 Mb/second asynchronous I/O to work with listed CD-ROM drives from NEC.
16. This adapter must be configured for 5 Mb/second asynchronous I/O to work with listed CD-ROM drives from Chinon, Hitachi, and NEC.
17. AIC-7770c and AIC-7770e are supported.
18. Tested with the Digital Equipment Corp. Prioris XL Server 566.
19. Removable media drives that do not implement media locking are not supported with write-cache enabled.
20. Tested with COMPAQ Deskpro XL 466 and HP Vectra XU 5/90c.
21. Scanners are not supported with this adapter.
22. Tested with Firmware revision 4.25J and BIOS revision 4.92E.

23. Tested with the COMPAQ ProLiant 4500 Model 5/100(4p).
24. Tested with the COMPAQ ProLiant 1500 Model 5/166(2p).
25. Tested with Firmware revision 7C.
26. To configure this adapter in MIPS systems, the DPT Storage Manager Configuration Utility, MIPS version, is required. See the Release Notes for more information.
27. To configure this adapter in PowerPC systems, the DPT Storage Manager Configuration Utility, PowerPC version, is required. See the Release Notes for more information.
28. To use removable media drives with this adapter, disable disk caching for the drive with DPT's Storage Manager utility.
29. This adapter cannot be installed during Setup on MIPS systems. Use the SCSI Adapter applet in the Control Panel to add this adapter after NT is installed.
30. Some non-wide SCSI devices may require the disabling of wide transfer negotiations to function properly.
31. To use this adapter, at least one device on the bus must provide termination power.
32. Refer to SETUP.TXT for information on configuring this adapter.
33. Removable media is not supported with this adapter.
34. This adapter does not support the WangTek 5150es tape drive.
35. SCSI BIOS dated before 1991 requires PS/2 Reference Diskette version 1.12 or later.
36. This adapter cannot be used for CD Setup. To install Windows NT with this adapter, use the WINNT.EXE Setup method.
37. Tape drives are not supported with this adapter.
38. The driver for this adapter defaults to IRQ-15.
39. Adapter requires either a DOS boot partition or a Mylex-configured partition less than 2gb prior to installation of Windows NT. See Knowledge Base article #Q143141 for specific details.
40. Tested with NEC RISCstation 2000.
41. Tested with Dell Omniplex 560.
42. Tested with NeTpower FASTseries MP 2x150MHz.
43. Tested with Digital Equipment Corp. AlphaServer 2100 4/200 (Digital Equipment Corp. 2100 Server model A500MP).
44. Tested with COMPAQ Portable 486c.
45. Tested with NCR System 3000 Model 3360.
46. This adapter is only supported on IRQ-5.
47. Tested with firmware revision 005.
48. Requires firmware revision 008.
49. Not supported with the NCR 8250S SCSI controller.
50. This CD-R drive was tested for CD read capabilities only.
51. Users may encounter problems with some CD-R (recordable) discs.
52. Requires firmware revision 2.5 for proper operation, please contact NEC Technical support (800-388-8888) for assistance.

53. This drive is not supported on the Alpha platform for this release.
54. This drive is not supported with the IBM PS/2 Microchannel SCSI Host Adapter.
55. Tested with firmware revision R.
56. This drive is not supported on the PowerPC platform for this release.
57. Requires firmware revision W11 or greater to function properly with Windows NT.
58. Supported with CD-ROM drives based on Panasonic CR-52x and CR-56x models only.
59. Requires firmware revision S02 or greater to function properly with Windows NT.
60. Tested with firmware revision BA02 and BA01.
61. Tested with firmware revision BB02, BG01, and BB03.
62. Tested with firmware revision 0.2f and 1.0c.
63. This drive is not supported with the Adaptec AHA-1640 adapter.
64. NTBackup does not support autoloaders. This drive is supported in single-tape operation only.
65. Requires firmware version 484 or later for proper operation.
66. This drive is not supported with the Future Domain TMC-850M(ER).
67. This drive is not supported on the MIPS platform for this release.
68. Tested with firmware revision ARCHIVE IBM4326NP/RP !D04AP
69. This drive is not supported with the IBM PS/2 Microchannel SCSI Host Adapter (with cache).
70. This drive is not supported with the Adaptec AHA-1510 adapter.
71. The Future Domain TMC-1670 with bios version 3.0 requires that the bios be disabled when used with this drive.
72. Compression jumper must be in enabled position on this drive.
73. This drive is not supported with the UltraStor 24fa adapter.
74. Requires firmware revision DEC9314
75. Tested with firmware revision DEC4318
76. This drive is not supported with the Adaptec AHA-1742A adapter.
77. Firmware version 1.05 is required for proper operation.
78. This drive is not supported on the MIPS platform.
79. Formatting a Floppy (QIC-117) 80/3010/3020/Travan tape drive may require disconnecting from the network to enable tape to format properly.
80. For best results use pre-formatted tapes.
81. After inserting a tape, wait until the drive light is off before any operation is started.
82. If an incompatible tape cartridge is inserted into a drive a "Bad Tape" error will occur. If a QIC-3020 tape is inserted into a drive functioning in QIC-3010 mode, a "Bad Tape" error will occur.
83. This tape drive requires a floppy controller capable of transferring 1mbps or greater for QIC-3020 support. Otherwise the drive will work in QIC-3010 mode. 1 and .5 mbps controllers can be verified by looking in

- HKEY_LOCAL_MACHINE\hardware\devicemap\tape\unit 0 key (after the backup software has been run at least once).
84. The driver for this controller is provided on the Windows NT 4.0 CDROM in the directory \drvlib\storage\fenb\cms.
 85. The driver for this controller is provided on the Windows NT 4.0 CDROM in the directory \drvlib\storage\fenb\conner.
 86. This drive must have the on-board cache disabled to function properly with Windows NT 4.0.
 87. Tested on X86 only.
 88. This drive is not supported with the Windows NT boot floppy setup method.
 89. Requires DeskScan II 2.2 for proper operation. Please see the Release Notes for further information.
 90. Supported in GreyScale mode only with DeskScan II 2.2.
 91. Differential device. Tested with DEC KZPSA on DEC Alpha. Tested with QLogic PCI, BusLogic 956D, and Adaptec 2944W adapters on x86 systems.
 92. Tested with COMPAQ SmartCache2 adapter only.
 93. Tested with DEC KZPSA-BB SCSI controller only.
 94. Differential device. Tested with QLogic PCI, BusLogic 956D, and Adaptec 2944W adapters on x86 systems.
 95. Requires firmware version 1.15.15s for proper performance.
 96. Versions of this board based on the 688LX or 68003 chip require more than 1mb of video memory to support 800x600x65k.
 97. Some revisions of this board are not supported under Windows NT. Please see the Release Notes on how to identify these boards.
 98. The AVGA driver will occasionally present "snow" on the screen at 800x600.
 99. This adapter only supported in COMPAQ DeskPro product line.
 100. Refer to SETUP.TXT on the Windows NT CDROM for information on configuring this machine/device before installation.
 101. Requires Firmware revision E. BIOS 3.09 for proper performance.
 102. Tested with NCR System 3000 Model 3445.
 103. Tested with NCR System 3000 Model 3350.
 104. This card is not supported on the Alcor platform for this release.
 105. This card requires the use of AlphaBIOS 5.2 or greater.
 106. This adapter is only supported on the IBM Power Personal Developer's ToolBox Program Standard Desktop System.
 107. Tested as on-board video chipset.
 108. Random pixel corruption may occur on Pentium based systems.
 109. Some laptops using this chipset may experience irregularities in VDM apps after several repeated mode changes.
 110. 65k colors are supported with a 565 DAC, 32k colors with a 555 DAC.

111. The S3 911/911a/924 Chipset will not work in Alpha using the Alpha BIOS Firmware for this release
112. Some older 928 chips do not support 800x600xTRUE with 2Mb of RAM.
113. Not all video board/monitor combinations are able to properly display 1600x1200.
114. This adapter has been verified to work with Network Monitor
115. Plug and Play mode is not supported on this adapter. Use the manufacturer's configuration utility to disable PnP functionality.
116. This adapter may not function properly on fast Pentium or PentiumPro systems.
117. This adapter is not supported on the COMPAQ ProSignia 500.
118. This adapter uses the 'Novell NE2000 compatible Adapter' driver.
119. This adapter uses the 'AMD PCNET Family Ethernet Adapter' driver.
120. FDDI tested only.
121. This adapter is not supported on Motorola PowerPC models.
122. Not supported with Multiprocessor MIPS systems.
123. This adapter is not supported with DMA mode enabled.
124. Not compatible with IBM Thinkpad 700.
125. Non-bidirectional parallel port machines may suffer performance degradation when the driver for this adapter is installed.
126. The Toshiba 4700CS and 4800CT are not supported in Bi-directional mode with this adapter.
127. External TA(CSU/DSU/ISU) required.
128. Please see the Windows NT 4.0 Release Notes for more information on installation of the driver for this hardware.
129. No support for Advanced Wave-Table Effects.
130. FM Synthesis not supported on Cards with 1747 OPL FM Synthesis chip.
131. Not supported in Sound Blaster 1.x compatibility mode.
132. Supported in Sound Blaster 1.x compatibility mode.
133. This device requires a driver from the Online Windows NT Driver Library(WNTDL).
134. Does not support SPACE or MARK Parity or 1.5 stop bits.
135. Tested as standard serial ports only.
136. Supported on x86 only.
137. System requires ALR EISA Config utility 2.13 or later to enable COM ports in Windows NT.
138. External Cache must be disabled to run Windows NT.
139. Requires AST BIOS revision 1.02 to install and run Windows NT.
140. This system was tested with NT 3.51 Service Pack-3.
141. Must copy ABIOS.SYS and *.BIO from reference diskette to root directory of boot drive to install Windows NT on this system.
142. Requires the IBM RAID Controller v2.0 driver located in Windows NT Driver Library.

143. This system only supports 640x480x16 video resolution.
144. Contact Panasonic at 1-800-LAPTOP5 for CD-ROM compatibility with Windows NT 3.51.
145. To install Windows NT on this system SCSI detection must be skipped during setup.
146. Refer to setup.txt to properly configure this system for printing in Windows NT.
147. Contact the manufacturer for information on running Windows NT on this machine.
148. This model has firmware support for third party add-in video(INT 10).
