

IMPORTANT NOTE TO TESTSTAND USERS

TestStand Requires the Latest Version of REGSVR32.EXE for Windows 95 and Windows NT 4.0

TestStand requires the latest version of REGSVR32 . EXE from Microsoft. Without this version, TestStand reports the following run-time error when you launch the Sequence Editor or an operator interface:

```
An error occurred in the 'Login' step of the
'LoginLogout' sequence in 'FrontEndCallbacks.Seq'.
Library not registered.
User-defined error code. Error Code: -2147319779
```

You can install a new version of REGSVR32 . EXE by installing Internet Explorer 4 or later, or downloading REGSVR32 . EXE from one of the following locations:

- <http://www.natinst.com/support/teststandsupp.htm>
- <ftp://ftp.natinst.com/support/teststand/updates/1.0/>
(Read `regsvr32.txt` before downloading.)

After you update REGSVR32 . EXE on your system, you must reinstall TestStand.

If you have further questions, please contact technical support at support@natinst.com, or contact your local National Instruments office.

Notice to International TestStand Users About Localized Decimal Points

In many countries, symbols other than a period are used to denote a decimal point. These symbols are called *localized decimal points*.

TestStand 1.0 does not support localized decimal points. Furthermore, TestStand reports a run-time error when you execute a sequence if the Decimal Symbol of the Regional Settings Properties in the Windows Control Panel is set to anything other than a period character (.).

To avoid these run-time errors, do one of the following:

- Download the patch that prevents this error from occurring. You can download the patch from one of the following locations:
 - <http://www.natinst.com/support/teststandsupp.htm>
 - <ftp://ftp.natinst.com/support/teststand/updates/1.0/> (Read `tspatch1.txt` before downloading.)
- Change the Decimal Symbol to a period character in the Regional Settings Properties of the Windows Control Panel.

TestStand 2.0 will include full support for localized decimal points.
