

# SPECIFICATION ADDENDUM

**For the AT-MIO-16XE-50 (Revisions A-E), DAQPad™-MIO-16XE-50 (Revisions A-C), NEC-AI-16XE-50 (Revisions A-B), NEC-MIO-16XE-50 (Revisions A-B), and PCI-MIO-16XE-50 (Revisions A-F)**

The onboard calibration reference specification is incomplete in both the *Analog Input* and *Analog Output* sections of Appendix A, *Specifications* in the user manual for each of these products. The corrected specification, with the addition in *italics*, is shown below:

## Stability

Onboard calibration reference

Level ..... 5.000 V ( $\pm 3.0$  mV)  
*(over full operating temperature,  
actual value stored in EEPROM)*
