

## NOTE TO USERS

# NI PCI-4070 Specifications and Documentation Addendum

The following information updates and supersedes other published specification and documentation information for the NI PCI-4070.

## General Specifications

---

Maximum common-mode voltage.....300 V

Installation Category.....I

**Caution** The NI PCI-4070 is rated for Installation Category I and is intended to carry signal voltages no greater than 300 V. Do *not* use the NI PCI-4070 for connection to signals or for measurements within Installation Categories II, III, or IV. Do *not* connect to MAINS supply circuits (for example, wall outlets) of 115 or 230 VAC. Refer to the *Read Me First: Safety and Radio-Frequency Interference* document at [ni.com/manuals](http://ni.com/manuals) for more information about Installation Categories.
