Notices

References in this publication to IBM products, programs or services do not imply that IBM intends to make these available in all countries in which IBM operates. Any reference to an IBM product, program, or service is not intended to state or imply that only IBM's product, program, or service may be used. Any functionally equivalent product, program, or service that does not infringe any of IBM's intellectual property rights may be used instead of the IBM product, program, or service. Evaluation and verification of operation in conjunction with other products, except those expressly designated by IBM, is the user's responsibility.

IBM may have patents or pending patent applications covering subject matter in this document. The furnishing of this document does not give you any license to these patents. You can send license inquiries, in writing, to the IBM Director of Commercial Relations, IBM Corporation, Purchase, NY 10577, U.S.A.

About This Book

This Parts Catalog (PC) contains listings and illustrations of all replaceable assemblies, subassemblies, and detail parts for the 3745 and 3746 Controller Expansion.

The information herein allows stock and maintenance personnel to identify, requisition, and issue replacements parts.

How to Use This Parts Catalog

HOW TO FIND PART INFORMATION

WHEN ASSEMBLY
LOCATION IS KNOWN

PERFORM STEPS

(A) (B) (D)

WHEN ASSEMBLY
NAME IS KNOWN

PERFORM STEPS

(B) (C) (D)

WHEN PART NUMBER
IS KNOWN

PERFORM STEPS

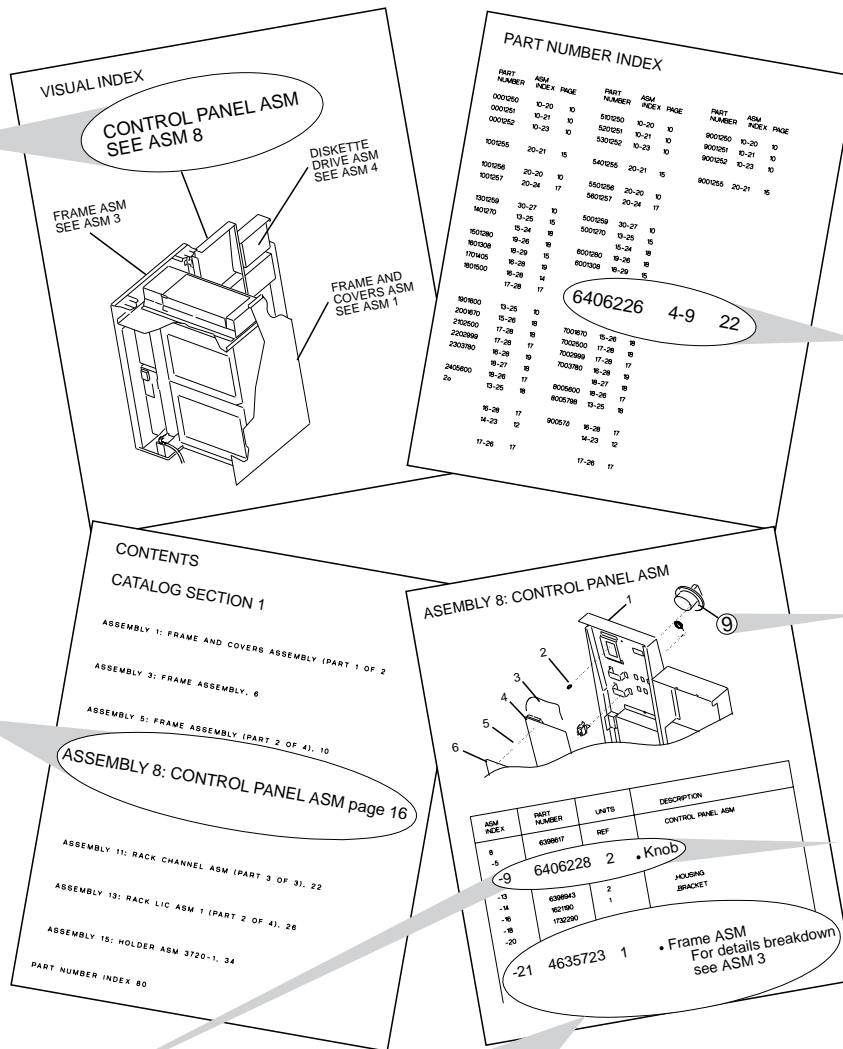

(E) (F) (G)

(A) Turn to the visual index then locate, by illustration, the assembly containing the part.

(B) Turn to the page for that assembly, then locate the part visually.

(C) Turn to the contents page, then locate, by name, the assembly containing the part.

(D) Using the part number index shown with the part, refer to the accompanying listing to obtain the part number, description, and quantity.

Part Listing Glossary

① **NONE** When this notation appears in the Part Number column, it denotes a part or group of parts that have not been assigned a part number. The part number of cards and boards is not given because it is subject to frequent changes.

② **NR** this notation in the Units column denotes a part not recommended for field replacement.

③ **AR** this notation in the Units column indicates that the quantity is as required.

④ **SIMILAR ASSEMBLIES** If two or more assemblies contain a majority of identical parts, they are combined in the same listing. Parts common to assemblies are illustrated and listed by one index number.

Parts specific to one or the other of the assemblies are listed separately and identified either in the description of the part, or

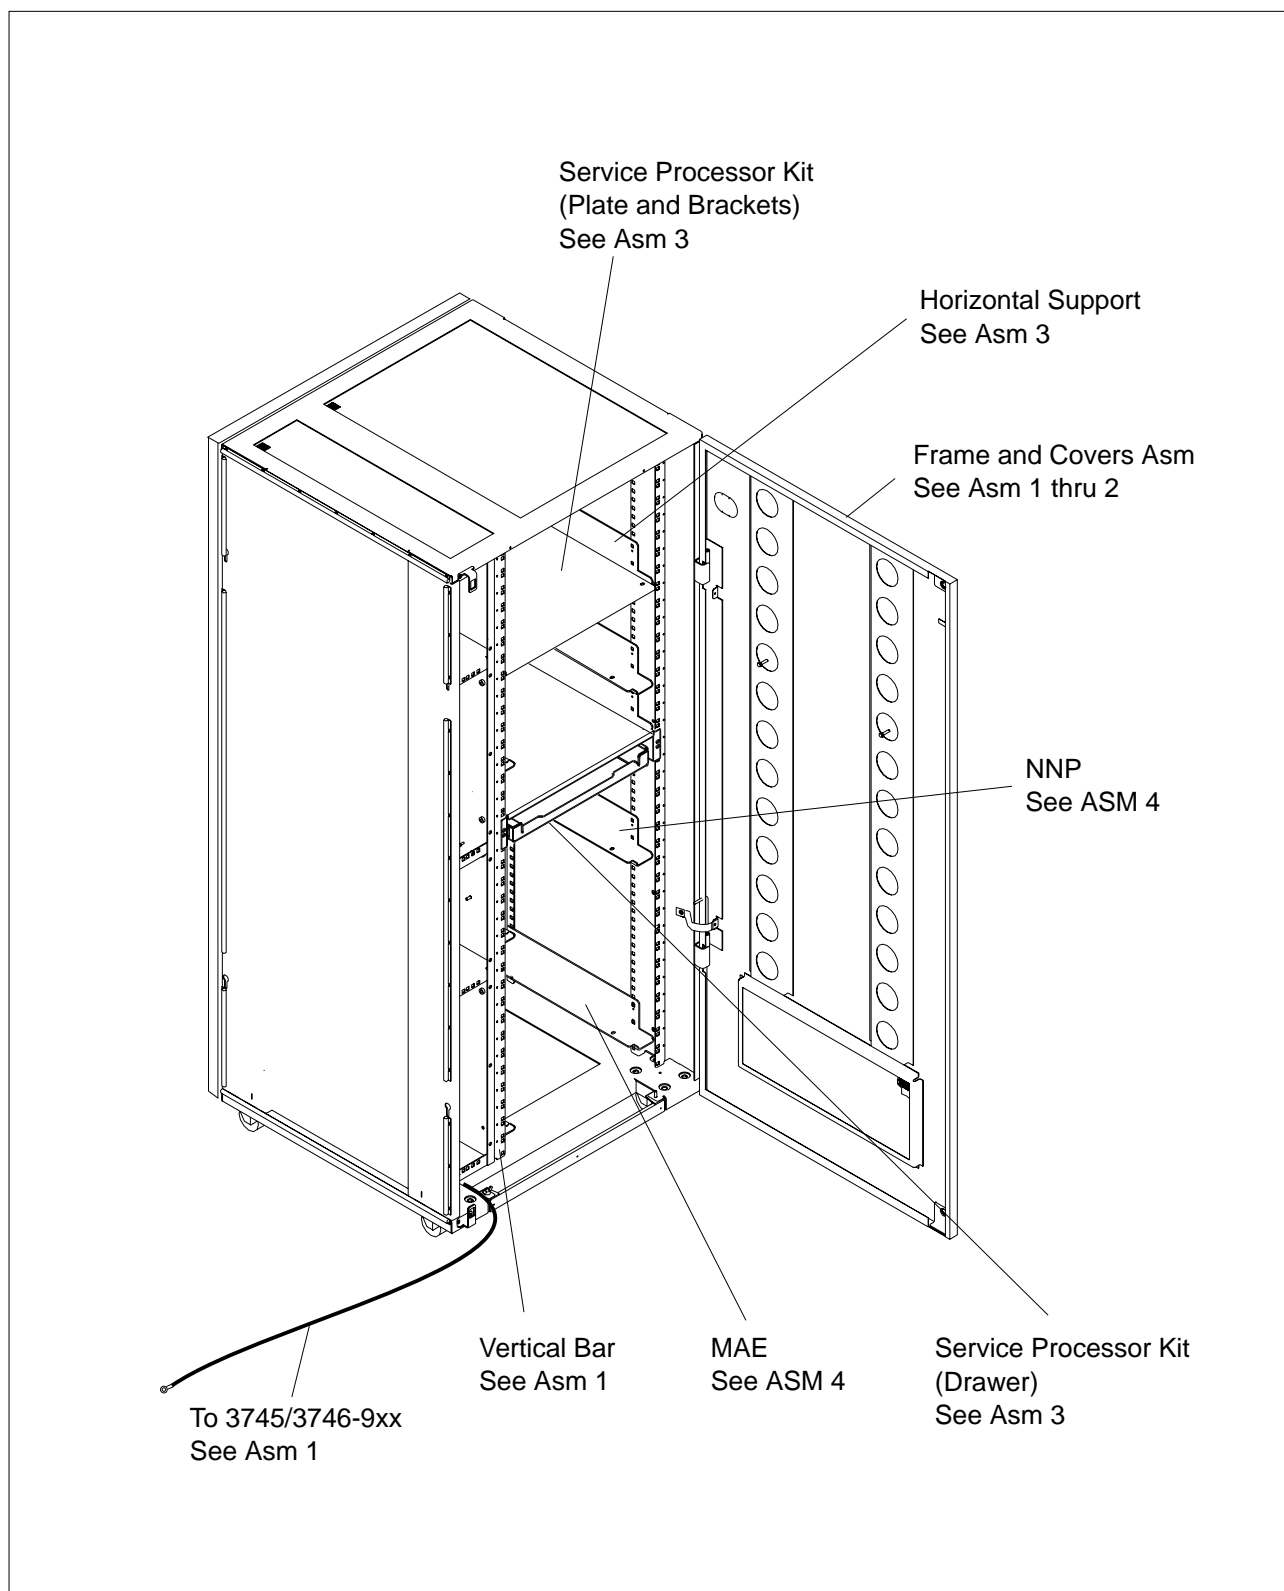

⑤ **REF** this notation in the Units column indicates that the listing of the assembly is repeated and reference should be made to its previous listing for the quantity required.

⑥ **INDENTATION** the indentation of items in the Description column of the table below shows the relationship between assemblies, subassemblies and detail parts. For example:

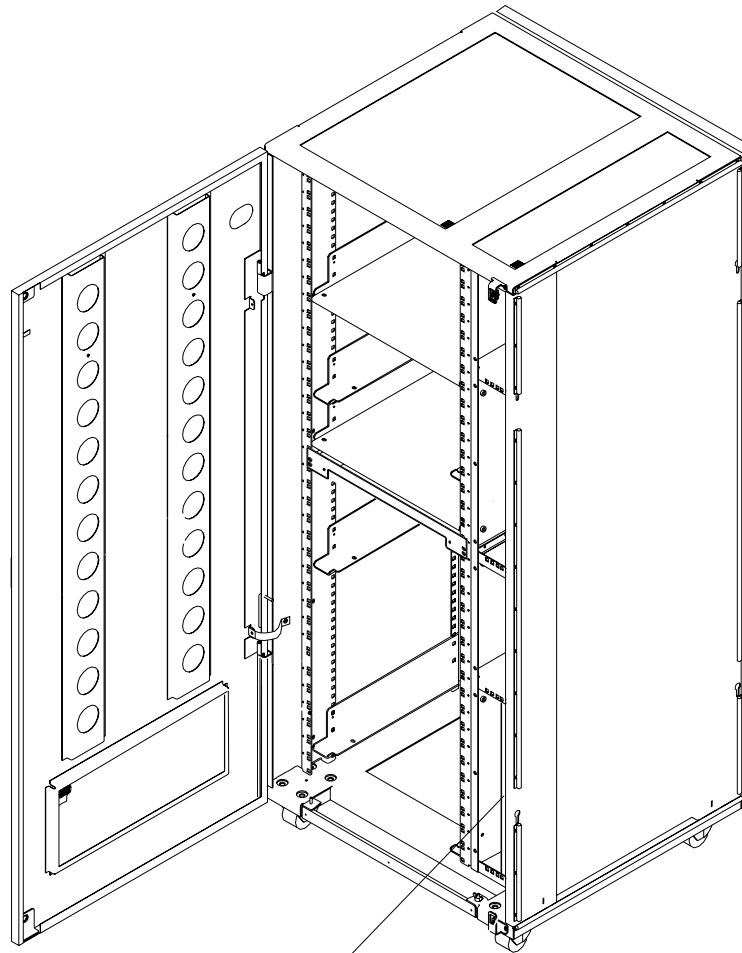

Not dot		MAIN ASSEMBLY
One dot	●	Detail parts of main ASM
One dot	●	Assembly within main ASM
Two dots	● ●	Detail part of 1 dot ASM
Two dots	● ●	Assembly within 1 dot ASM
Three dots	● ● ●	Detail parts of 2 dot ASM

Asm-Index	Part Number	Units	Description
