Residue 235 given in the article by Prabu *et al.* [(2008). *Acta Cryst.* **D64**, 1146–1157] is corrected.

In the article by Prabu *et al.* (2008), residue 235 was given incorrectly as Glu in Fig. 2(c) and in the text. The residue is actually Asp. The error was caused by an oversight and weak side-chain density. In the PDB deposition (2zrn), the coordinates of only C β of the side chain are given.
